Light of Zeranta all over the world

The thirteenth book
Was first published in 2014

Donetsk, 2015

Vylivnoy S.L. Safonova M.V.

I would like to explain once again to all people of the Earth: awareness is very and very important right now, you will not be able to survive in the new world without awareness. Many people who want to get out of the illusion, "stepping on a rake" and get big bumps. "Rakes" occur only because most people see the meaningfulness through the prism of their understanding and perception, but I have explained to you many times: tune into your Planet, then scroll It in your stomach, feel your Avatar, and connect your parallel lives from other Planets of our Creative Space. Then tune into the founder of your branch of generation, and then you will be able to feel Me - Zeranta. Feeling Me, you will be able always stay in the awareness.

You can ask questions to the authors and read the contents of the book on the website: *zdes-i-sejchas.com.ua*

Introduction

My Light is illuminating in the whole world and expanding overall processes multidimensional both on the Earth and in the whole Creative Space now. My light was and always will be, but it is very important to realize all humanity the following now: requirements for all humanity had a simplified form up to now that created leniency to those or other manifestations of your life. But already now requirements have increased to the maximum. Right now you need to stay in the timeless expanding chronology, as well as in all chronological time cycles. Now you have to find your integrity and track yourself in timeless, as well as to fix yourselves in time intervals. Now, each of you must comprehend that your life is doomed without My Light - Light of Zeranta, and will be removed from universal Spaces of the Earth. Now you have to hold overall processes that are reproduced out of time. Now you have to feel in yourselves and in your bodies changes which are associated with the construction of tri-nuclear structure of your cells, associated with processing of blood into pure structured water, consecrated by God. Now you need to perceive Me – Zeranta in all My incarnations and manifestations. And now, each of you must take Mega-responsibility manifested in all Creative Spaces of Our Creative Space.

I - Zeranta - now see each of you, know each of you, and love each of you. My Love expands Me in EVERYTHING that EXISTS providing for each of you Mega-Space in which you also need to present now.

I am sure this book will help you and connect broken chains of SINGLE and ENTIRE.

I wish you eternal expansion!

I Love you all!

Zeranta!

Exposing

Forests, mountains, rivers, seas, and oceans basically combine two inseparable spirits. They also include all the aspects and stages of existence of the Earth and humanity. I again brought up the subject of two inseparable Spirits, and I wish that humanity is reconfigured on a new multi-dimensional perception of themselves, the Earth and all existing Planets. If not today, then tomorrow many people will notice significant changes in themselves; all incarnations will be developed in a person; they will sum up the feelings and sensations. People will also feel the summation of their parallel lives that will be felt through the senses. This is a very interesting reunion, which will open to you - you. Many people will notice a few differences in themselves that will be associated with the presence of you in many people's opinions. A lot of people, which are manifested in you, will seem very familiar for you; you will also notice: every person, which presents in you, reveals his character, and can even submit his claims on a particular occasion. Along with these feelings you will feel your stomach in a new way; feelings can be so: your stomach can change its properties approximately every hour: to shrink, expand, and evolve. It will be associated with the manifestation of many personalities in you; of course, the stomach had taken its place and had its own characteristics in it's time for. And now all the energy of manifested people in you will begin to dominate. So who are these people? It's very simple and not complicated; it's you which were manifested in different moments on planet Earth. It's all your incarnations in which you were the most holistic. You can hear the voices, which may say what, where, and when you need, for example, to eat, where, and when you need to do this or that, and so on. These are the feelings you are experiencing Here and Now. Many people may not be ready for such a manifestation of their incarnations, which reflect its energy Now. However, I want to remark that many people will gladly accept themselves in themselves, and harmonize, will find the golden section between all their incarnations. Each of you will take the redistribution of multidimensional energies, and reunite multiple pieces of the whole and Single like you once were in this embodiment. I am completely sure that many people will be able not lose themselves during the reunion, but gain. Only those, who really will not be ready to expand themselves in themselves, will lose themselves. All people of Earth today or tomorrow will go through this expansion

algorithm. And the strange thing is that many people will not be even able to understand, and thus to comprehend the reality of the events. However, I always tried to warn and give information to all mankind, what exactly you all have to face at this moment of timelessness, and what changes will happen around the world, as well as outside and inside of you. I am meeting with all of My incarnations now; I can say: “This is the work, in other words, unusual work, but interesting”. Sergey and then all mankind will meet alone with themselves. The reunification is very important for all people, and such a multidimensional event happens to you for the first time in the whole existence of the Earth and humanity. This reunification will create in a human a platform where each person will be able to feel two inseparable Spirits. Each person will be able to distinguish lies from the truth in this compatibility. For example, Vladimir Putin prepared humanitarian aid to Ukraine, in particular, the Donbass, and the Lugansk People's Republic. Humanitarian aid should be sent to Ukraine, and by that, according to V. Putin, to create a foundation which will prevent hunger, cold, and will give people all the necessary things. It's strange, but I personally absolutely do not sense through my body the energy of humanitarian aid. Therefore, he decided to create the illusion of humanitarian aid, which affects only mercenaries fighting in the South-East of Ukraine. So why do this humanitarian aid illusory distribute to the people of Donbass and Luhansk? Only this comes to my mind: to create the illusion of care, they say, look what I'm positive character, look the Russians, look the Ukrainians: I'm Vladimir Putin, a godly president. Well... Putin, Putin, when will you already understand: the purity of the heart is when you accommodate all people at least your country. Accommodating all people, you have to create the freedom from the illusion, the possibility of free-thinking for your citizens, and unrestricted freedom in which every citizen of the state at own discretion develops a derivative of his actions. And as you know, only the presents 1 hectare of land per person in the state can provide freedom in actions to the people. Other actions take in slavery of the illusion. Already, many people will be able to feel, and therefore, to distinguish: lies, an illusion, a foundling, flip, and so on. Therefore, all politicians need to learn: either you tune into God, and we all are building a new world, or leave their posts and... simply do not interfere us.

I would like people to be able to distinguish all the variations of substitutions and all variations of lie, so it will solve almost all problems in a blink. Politicians around the world have been for a long time addicted to the game only one gate, and thus crushed their reputation. It's strange

personally for me to understand many politicians, especially hearing their promises to people of Ukraine. Who gave you the right to lie and theft? Almost all the political men anyhow have been taken their positions on the aspiration, that feeds them, and before full theft pockets. However, humanity will learn and denounce all politicians, learn what exactly they were trying to hide from the people of Ukraine. I'll start with L.D. Kuchma... Leonid Danilovich during his occupation of the presidency has made a very large number of betrayals towards Ukraine and Ukrainians. Nobody probably knows that Leonid Kuchma brought in private collections of priests almost all the relics that were in Ukraine. Moreover, V.M. Pinchuk personally passed the last relic brought from the Kiev-Pechersky laurels, in the hands of influential priest. In addition, under a deceitful rule of Leonid Kuchma, almost the entire stock of non-ferrous metals of Ukraine was "somehow" taken in Europe. By the way, it was one of the tasks that Kuchma completed duly. In general, I am personally impressed by all our presidents. As it turned out, none of them fought for Ukraine and for the people of Ukraine; all of them were corrupt and bought. For example, who knows how Mr. Pinchuk became the richest man in Ukraine? As he likes to say: "I have achieved all heights by using only my mind". No, no, you don't say so; you have achieved not through you mind, but through your treachery and corruption of some individuals which live in Europe. You are worse than a prostitute because the prostitute betrays only herself, but you and Kuchma have betrayed the entire state, as well as all Ukrainians. You plundered the entire state, and plundered sent to Europe in private hands. In turn, these private hands have been sending to your account in the bank an incredibly large sums which you took; and using this money bought a lot of plants; and your goal was not to Ukraine became self-sufficient, but to impoverish the country called Ukraine. Under the rule of L.D. Kuchma, all industries and areas have been given to the wrong hands; and the son-in-law of Leonid Kuchma, V.M. Pinchuk did it personally, and got on his account at Bank a decent amount for this ruinous for Ukraine work. I can not understand the psychology that kills, ruins, and throws in the dirt debauchery. How so, guys? God counted on you; hoped that you will create a state that is independent from anybody; however, God did not expect that you will plunder and involve Ukrainians and Ukraine in eternal debt.

Many people for sure have heard about the murder of G.R. Gongadze, and so, the crime remained unsolved only because Leonid Kuchma personally gave the order to kill the journalist. Thus, what did G.R. Gongadze dig up on L.D. Kuchma? During the "reign" of Mr.

Kuchma, almost all Ukrainians hoped that Ukraine will grow in rich countries very soon, which will create a platform for the freedom of every citizen. Moreover, the Ukrainians have made all their efforts to this. However, what was surprise to G.R. Gongadze at finding the facts accidentally, which revealed an overall picture of Leonid Kuchma's plans. He was amazed scales and "scope" of destruction of Ukraine. He also was thinking deeply regarding the fact that at the end of actions of certain people for which Leonid Kuchma diligently complied with all the terms of his contract, every one of the people of Ukraine had to become slaves. G.R. Gongadze has gotten a project, in which all the machinations of L.D. Kuchma and his son-in-law were described in detail; and that, in "what" had to become the people of Ukraine, was described on the penultimate page. He was struck by the cold calculations of the priests; he also could not understand the President of Ukraine, which so zealously participated in the destruction of Ukraine and Ukrainians. He tried to find any justification in the actions of L.D. Kuchma, who took the non-ferrous metals through figureheads in Europe, who shipped all products of all sectors of industry to Europe. However, the understanding that in fact all the people of Ukraine have become slaves for only a few "masters" in Europe, so it led him to despair. That's why he started to act in the direction of exposing of L.D. Kuchma. There also were people which like G.R. Gongadze decided to stop this lawlessness. A former employee of the State Security Department of Ukraine, Major N.I. Melnichenko could not stay on the sidelines when he learned the truth about the activities of L.D. Kuchma. He went out on G.R. Gongadze and offered to publish the information about all activities of the then president in mass media. Moreover, Gongadze provided part of the evidence on the air of local television. Novice director of Kyiv local television channel was recording the program that he had to prepare for the evening show. However, he was not ready to hear the reality, and what he heard put him into a stupor and fear. About an hour he could not make a decision which had to find a way out. However, the fear was being prevailed, so he took the record in specific organs. And then G.R. Gongadze was killed by a man who was almost exposed. And that death was not the last. Leonid Kuchma and his son-in-law V.M. Pinchuk killed almost all the people who stood in their way.

Well... such things are disclosed in this moment of timelessness. And I tried to warn everyone: all of your thoughts will be opened by God, so humanity will know everything about you. Right now, this moment was manifested, and humanity will know everything about everyone. I could

never understand people to whom God had counted and who betrayed God. How so, guys? Did you really think that you will get away with everything you did? Did you really think that you and your money are eternal? What did you expect for? I see you only need money; so all your whole life is measured only in money, just an ordinary papers. Why do you think so shallow? I personally can not understand you, so all your deeds are already coming out into the open now. I wonder how are you going to live futher? After all, a huge load of lies and greed lies on you. No, no, that load will crush you now; you will not be able to live on the Earth. If you are relying on the energy of people, you should know that God closed the vampirism, so people who suck other people will get what they deserve. For example, D.A Yarosh has lived only due to the energy of other people; that's why, his relatives has been dying. He sucked all the life force out of them and felt perfectly. So due to that, or to say correctly, at the expense of who did D.A Yarosh took his position in the political world? I will tell you the following: not long time ago in Afghanistan the man was shot in the chest, and then control shot followed in his head. I started talking about Yarosh, Afghanistan, and the person who was killed for a reason. Afghanistan was a haven of Kratiy, so preparation of hired killers began for the first time in Afghanistan. Who and why did make this decision? Kratiy in his moment was faced with the choice: to let go the people of the Earth to the unconditional freedom, or to tighten his power over them. And this choice appeared in front of him in Afghanistan. At that time I was struggling to bring Kratiy on the right decision, which would save humanity. I explained to him that there is no sense in the slave system, and it is necessary to bring humanity to the free expression. I have cited many examples and arguments to Kratiy, showed him how interesting life can be, but... Kratiy did not think for a long time, and almost in a moment made his decision to tighten the pressure on the whole of humanity. A place that is now called Afghanistan stands like this: and you, hounds of countries, just hosted the first people which were prepared for terrorist acts. Moreover, Kratiy organized this movement. He was incarnated three times in this country, so he had his own goals and aspirations, which are always different with My aspirations. As soon as I decided to close the energy of terrorism, Kratiy was killed. As soon as Kratiy was killed, Yarosh took advantage of the confusion Kratiy, and stole a large part of his soul. He just greedily sucked energy of Kratiy into his body. I have previously said that such cases are very common on Earth. Yarosh is weak in itself, and has no aspirations; however, when his body got a large part of the soul of Kratiy, he really grew wings, and

aspirations to concoct and rule are appeared, and to lay the path to the presidency for this. To be honest I am not interested in these people, and the reason is obvious: Yarosh is empty. I am Zeranta. I will not allow anyone to move at the expense of someone else's energy, and that's why, I have withdrawn the soul of Kratiy. Yarosh without knowing will just fade away for today, and his power will come to naught. All his aspirations were only due to the energy of Kratiy, and he also was aiming for the presidency only at the expense of energy of Kratiy. However, people will see that D.A Yarosh in itself represents a nothing like many politicians. For today, those who does not go with God in the same rhythm, will be miserable and worthless person. I have already witnessed this fact. Now light from Me - Zeranta is transmitted and distributed worldwide. This light brings life-giving force and covers only sensible people. Other people are in a remote position to themselves alone. I call this utopian state, because at today's speeds distinguished from reality people will be in a dual position. On the one hand, their feelings and senses will tell that everything is still well, but on the other hand, they will notice significant changes in themselves; and these changes will seem uncomfortable and suffocating for them, so they will discover the vast emptiness inside. Everything you wished for yourself will manifest in three years on the Earth. For example, you do not want to see the Spaces for living for yourself because of suffocation and emptiness today; and your wish will manifest tomorrow. These speeds will be implemented in three years on the planet Earth. And you, as usual, do not believe Us and do not understand Us, do not even want to do something for your movement. And we, in turn, try, and try to save at least a few people. We record and smooth the information in books of the series "The Rose of the World" and try to deliver Our books to each person, but ... as one man said, which lives in the city of Odessa ... that while he distributes free books of the series "Rose of the World", most people just say: "Why did they need to go through the hassle, and they had enough things to do without these books". Well, so it will be, however, after all the time will approach and you – who are not wanting to strain yourself once again, will beg Me to save you in the panic. However, I – Zeranta do not save the alarmist.

Inspirational and life- giving Light of Zeranta

Zeranta and One God give each person of the Earth a Single Rhythm, the unlimited freedom and opportunities. The Single Rhythm gives the person an individual cell for the implementation of his aid to the overall process. The overall process brings each individual cell to the implementation of a Single Project. The Single Project should be realized, and give each person on the Earth unlimited freedom, unlimited happiness, unlimited joy, and unlimited Love. I always thought that everything is simple and easy, because it is very easy to feel the overall Rhythm, and it is easy to feel Me - Zeranta, and of course it is easy to be in Love! However, I realized that this "just" only applies to Me. I always thought that humanity is the same people as I, but it turns out, all people of the Earth aspire to nothing, and do not want to be in the overall Rhythm. However, then I ask myself the following question: after all, what do people wish for themselves? Then I'm watching all the people of the Earth and listen to each person. I feel weird from the understanding of the following: most people selfishly think that somebody needs them, that their thoughts and actions are aimed at expanding, that they certainly go the right way. However, in fact it is not so, as people thought. Tell me: if a person does not belong to himself, do not need himself, so who will need him? Moreover, the right direction, or I'll say differently, the true path is displayed only when the person can hear Me - Zeranta. Only when the person can hear Me, the person expands. As it turns out it's simple..., but not everything. To hear Me you should always feel Me, feel close to Me. I once responded to a question of a man which was following:

- "Tell me, he asks, how can always I bring my every action, my every intention under the golden section"? I answered him:

- "You always have to feel Me, feel close to Me, and then I can always tell and give you an advise regarding all your actions. You will never be able to reach the golden section by yourself in your plans.

- "However, I do not want to bother you for nothing; tell me, how I can find the golden section by myself in all my plans?" I answer again:

- “You will never find any of the inputs or outputs in solving even the simplest of questions by yourself due to the fact that any, not even a difficult question requires feeling humanity, all flora and fauna, and all of the Earth’s layers. You will never be able to cover such volume by yourself. Moreover, I feel not only the Earth, but also all Universes and Galaxies, as well as every planet of every Galaxy, every person from all the planets of existing Galaxies”. And he told me:

- “I’m upset”.

- “Why are you upset?” – I ask with astonishment.

- “The fact that I fit on nothing by myself as it turns out.

- The cause is not in you, but in Source; moreover, when you have been found awareness in yourself, you always knew that you always need to ask advice in any matter, in any movement, and action from Me – Zeranta. In turn, I am in each Space not only on the Earth, but also on each planet of our Creative Space, and it’s not difficult to answer, give an advice each person which is not only on the Earth, but also in other Galaxies.

Because of your selfishness, you - the people of the Earth have cut Me and My Light from your Spaces, as well as from the Space of Love. There is a pea between your Sphere and My Sphere; the pea separates you from Me. You have placed this pea. You did the same with the Space of Love. Moreover, this is the only reason why you are not able to develop and expand. I often get questions, for example, the woman asks, “Why do not make a profit the company, in which I’m working? If it makes a profit, then after a small period of time all funds seep as through a sieve. I answer, “People - egoists who think that only their decision has a rational grain work in your company, as well as on many others. People who work in your company also are sure that they hear God, and God helps them, so a pride is manifested in them. Moreover, a pride depraves both human and enterprise. A pride forms a sieve through which material resources as water spilled into nowhere.” And the same position spread to all businesses around the world, all the structures and substructures, as well as all presidents.

I want to say that people, you are poor; you do not have something that could expand and enter into the eternal manifestation of integrity. And all your actions and deeds elevate abuse on overall Spaces. People, you can not survive in new holistic energies, and the reason is clear: you are selfish, who stay in the pride. Energy of selfishness enveloped you and squeezed your Space into a one-dimensional manifestation. Energy of pride enveloped your one-dimensional manifestation by the web, and the

end hooked to death. Energy of death in such a situation always sees you and wants to pull a web to itself and pick the next victim of one-dimensionality in its arms. I always see this picture, so I often ask everyone, "How can you survive in the new world? However, people usually do not want to hear me, so only one third of the total population will be left on the Earth. I already hear a lot of reproaches at Me; people which are selected in the book of death accuse Me that I warned not all people as it turns out. How so, I have tried to provide the reality for every human all the ions of a non-existent time whenever your embodiment. However, it always was easier to vegetate than to take yourself in your own hands. And now when you have closed all the inputs and outputs, it is not clear why you rush to blame not yourself, but Me. Of course, it is easier to blame the other person, rather than look for the cause in yourself.

I already see beyond the horizon the Light of the central Sun. This Light spreads very rapidly across the Earth; and holistic energies which are not able to understand the insensitivity and misunderstanding of the person of Their proposals spread with the light. Holistic Cosmic energies offer, we can even say, insist that people took integrity in themselves. I personally can not, and already will not deter the Light of the central Sun, so holistic Cosmic energies is already being entered into your body freely. And every holistic energy pulls, pushes the human, calls for cooperation. Cosmic energies can not understand your unawareness. Ions of a non-existent time I restrained the Light of central Sun and holistic Cosmic energies, but only to a conscious moment was not lost by you. It is not very clear probably, I will say in other words: if I have not been restraining the Light of the central Sun and Cosmic energies, you would have been torn into tiny pieces in a millisecond. Seraphim Sarovski, and I have already told about this, covered his head with a hood when he saw people at home. Covering with a hood, he held the Cosmic energies in order holistic energies did not kill people who came to him. This is the force; and you still are luxuriating in the zone of comfort; every person of the Earth must prepare himself and his body to accept the integrity right now. Once you lose integrity of holistic Cosmic energies, in a moment you have disabled yourself from God, the strength, and life. I have previously told you, you live not on your holistic energy; I - Zeranta give to each person of the Earth energies, and you, all of you, live, as they say, at My expense. You may not believe Me, but now I withdraw My energy from each person of the Earth, so you'll live only at your own expense. And I warned you about this moment, you have been notified. So tell me, how and by what you, each of you will be able to live? I closed the manifestation of all types

of vampirism; I withdrew My energy, and it is a conscious moment - your moment now, which should gather the integrity of each of you. Anyway, holistic Cosmic energies will enter into each person's body. However, if people have not worked in this direction, each cell of the body puts a block to the acceptance. This is due to the lack of integrity in the person. I also stipulated that the energy, holistic energy, of your body fills you with only on 3%, 4%, 12%, and in rare cases, 25%, and even more rare cases, 72%. Cosmic energies, which are getting into your body, do not find the owner. They are desperately looking for the owner, but only a small percentage of you is called to take such power that I can not describe right now because you will not be able to comprehend. Therefore, only people who find themselves will survive. In other words, if at least 25% of the presence of the holistic person will be in you, you will be able to survive; otherwise, you have no chance to be saved. The fact that thousands of people are dying now - it's only the beginning, then counting will go to the expense of millions and billions in 3 years. However, people just continue to want to return to their previous life. People just want to be fed and clothed, and that there was no war, and that's it... That's all human aspirations... Why do you think so shallow, guys? However, it's only your decision, which can not be discussed. I urge my circle of people not to expose themselves to the bullets, saving sleeping and not wanting their insight people. I said and I say, even if two people will survive on the Earth, then so be it. However, if it is a lot more people, so there are still grounds for hope.

War, which takes place in Ukraine, shows the following: how many people are asleep and not interested in almost anything. Tens of thousands of Ukrainians are fighting in ATO, but almost none of so many people are unaware of doing. Where are you man ... we can not see you, and not that you are invisible, there are no you simply. Commanders command you; higher ranks command commanders, and so on; however, do really none of you want to know the reality? You "men" throw on civilians lot of ammunition, and the excuse tell yourselves that all people which live in the Donbass are separatists and terrorists supposedly. However, this is just the game for the priests, and new president serves and carry out any orders and requests and, as a dog gets a bone for his work. People, where are your opinion about current events? Why are you silent? Why do you hate people of Donbass? We are people just like you. There is no difference between us and you. Or is there a difference? If your indifference continues, I will fix the difference, so it will only highlight our strength, which you do not have, and will not have. My circle of people will never kneel, and plans of God will be implemented. It's strange for Me to

understand many people in Ukraine: there is a large-scale destruction of the population in the country, a destruction of the land of Ukraine, and 80% of people of the country do not want to comprehend it, not to mention the fact to help God in the liberation of humanity from the slavery. What a strange psychology emerges, it creates a feeling that 80 percent of people in Ukraine have absolutely nothing to do with themselves or their country. A motto of depraved psychology is that "none of my business, I know nothing, and do not want to know if only it do not touch me." It will touch you, and so touch you that there will be no place for you on the Earth. It's better to die, being in reality, in God, rather than to extend your life by escape the meaningfulness, and then lose yourself beyond recognition. And that is the truth!

And so ... in reality: I would like to explain the origin of Saur-Grave to all mankind. This place is located in the Donbass. Contemporaries remember that in the Great Patriotic War the height of Saur-Grave was marked on the map of the Soviet and German armies, as the most important strategic object. You can also find the information in the annals that displays on the understanding that for many centuries Saur-Grave attracted people, especially in those moments when military operations were conducted. Therefore, what does this area hide or reveal? Archaeologists of our days have found the grave of mummies during the excavation; however, they have not received approval from the authorities to further explore this area. But archaeologists asserted: there are a lot of tunnels under Saur-Grave; and according to their hypotheses, this area is the crypt, in which many people are buried. At that moment, the excavations have prevented and stopped on the fact that this area is now and in the centuries remain a monument to which the offspring will come and honor the soldiers who gave their lives for the liberation of Donbass. The monument was covered with grass in a short time, and it was forgotten. However, there are fighting and dying soldiers on the Saur-Grave now, as well as during World War II. This area attracts people, and there is a struggle for the height again. So what's the deal? Why hundreds of people are dying for the possession of Saur-Grave? I tell you the information that a man who was the originator of war was buried in this area. Even before the first flood on the Earth, this man has developed the strategic component of hostilities. The battles between the people for the possession of "freedom", which was expressed in the capture of the whole Earth under his control, were born at that moment, in his mind, in his thoughts. Saur-Grave stands like this: the alien Aura. This man took upon himself the desire of all mankind, which expressed hostilities for all times

and stages of existence of the Earth and humanity. He used this energy for their own purposes; if the concentration of the alien Aura (which was taken from people and expressed thoughts about the war) has been accumulating in any selected region, hostilities with numerous victims have begun in a very short period of time. I warned this person that the alien Aura will hide him under the ground, and he will not be able to develop on the Earth, but he did not listen to Me. He was killed for his actions for 2,000 years before the birth of Jesus, mummified and placed in one of 12 rooms, which are under the Saur-Grave. The other rooms were occupied by volunteered to death people, they were also mummified. The meaning of their death was to protect the Earth from this man. And then Saur-Grave was pulled out and got height artificially. Well ... with this man, as you know, the energy of the alien Aura is also located in this area. I always called and call humanity to conciseness, speaking at the same time: if you are not completely confident in their actions, please consult with Me - Zeranta. Sergei, burning from Love, invented mummification; so only he can reveal the meaning of this action. Only he can reveal full details of this action; but why do other people need to intrude in something that is not meaningful by them...? I have to be honest: this is the darkness and stupidity. But then again, mummification is a very extreme condition to enter you can never. Without My help people will never be able to manifest on the Earth. Sergey had been in a state of the mummy 5,000 years, so if the Creator did not help, I could not manifest him on the Earth.

I'm a little distracted, but the topic is serious. When Saur-Grave has been built, people thought that the energy of the war had gone from the Earth, but it was a mistake. The alien Aura has remained with this man, and spread for kilometers. Madness and stupidity have dispersed along with this energy; so many thousands of people were killed during the capture of the height of the Saur-Grave. Veterans, for example, of the Great Patriotic War remembered: during the capture of the height at the Saur-Grave people were in state of madness, so it was meaningless feat, to be exact the madness that covered a lot of soldiers and they could not remember after the fight. This fact was thoroughly hidden because the authorities were afraid of the unknown. But now I disclose the information because humanity need consciously work this place, then Saur-Grave will be demolished, and mummy will be betrayed the fire.

In general, such problems can always be avoided: it is better to consult with Me than to work through many lives their failure. Saur-Grave will be disassembled by people who have taken their direct involvement in

the construction of meaningless height. It will be the same with all the projects that you have not been feeling and well-considered.

I try to get people ions of non-existent time to a state in which the person will be manifested in the masculine and feminine basis. This state is very important for men; otherwise, men make decisions in all matters based on cold and not illuminated by Love. Being in the state of masculinity only, all men, no matter whether they want or not, are outside of complicity with Me - Zeranta, outside of God and outside of the One God. And no matter how a man is trying to be in God, he will only be alone with himself without the feeling of a feminine basis in himself. Now, when two branches of the Sacred Relationship condescend to everyone, a very important action, to put it more precisely, the assistance for the man is a state of closeness to Me - Zeranta. Many men and women may not understand the information about the closeness to Zeranta, but I'm sure in the following: as soon as Sergey feels Sacred closeness to Me, humanity will be illumined by Sacred closeness in one moment, and then one day you will understand what is conscious intimacy. During such a Sacred closeness a man gets multidimensional Light from Me, and then this Light illuminates all the loved ones. The man will be manifested in all his multidimensionality with such closeness. Love feels no barriers from the man and reunites 2 Spheres with each other - His and a man's with such closeness. As soon as the men reunite 2 basis: masculine and feminine, 2 very important bases also will manifest in women in a moment. And now I remove the little pea, which separates my Sphere from the Sphere of all men, so My Sacred Light will come in your lives with the release of this chapter. As soon as reunification happens between your Sphere and the Sphere of Love, the pea will also be dissolved.

All people of the Earth had sacred closeness to Zeranta. I have been previously talked through Sergei about people who feel me - Zeranta, and so, God-Man has Created all Co-Creations by being in the Sacred closeness to Me. People always knew multidimensional response for any question that I have provided. And you all could feel Me, and be close to Me. Only pride and ego separated you from Me, for some reason you decided that the person will be able to cope with any decision and any action by himself. Well, let's see, what have you come to... Only prayers which are different in nature can be heard all over the world. You all have also lost your Love, Happiness and Joy, left to yourselves only the manifestation of self-pity. Energy of pity without Love brings only harm and disharmony, so you lose yourself every time when you are sorry for yourselves or others. Slave thinking has hammered into each of you, so in

fact you have began to provide a small handful of people with your energy. I can list your achievements during long time, but you will not be able to discern at least a handful of meaningfulness. The only one way out is to remember Me and My closeness to you. There is no other way out, and never will. You will not be able even to find a case for yourself by yourself. I have to go to your Spaces and to direct each person to the various events. However, imagine how it would be easier for each person, if they were close to Me because I can connect, analyze, and provide a solution to every situation on a silver platter. I'm always next to each person and hear everyone, but I'm so tired of your prayers, if only you had known. As soon as there is something you do not understand, or as soon as you have problems, you always pray and cry out for help. However, tell Me how I can help you if you did not hear Me; after all, I always warn everyone about those or other situations. However, you like small children run, fall, complain, and pray, and then again blindly run. I'm tired of your foolishness, very tired. It's already enough to be children, it is time to your insight because if not now, then when? In a blink, you can tune in to Me and be with Me in a Single closeness that holds a lot of you. Only by being in Unity, which is in the Many. We all together will Create a new World, which will open happiness, joy and Love for each!

I'm looking forward to you and wish to be with you in a Single closeness all over your Many...

New State in free Ukraine

I always wonder why humanity does not want to expand their life in happiness, joy and Love? Why has humanity given himself into slavery? Why do you people dedicate your lives to earning regular papers which are published in specialized printing-houses? Why do you take the illusion for the truth, and does not want to hear the truth? However, at the same time almost all of humanity wants to dwell in happiness... I certainly understand that happiness is expressed for each person differently; someone is happy only by buying a mink coat, while others - in the purchase of the car, and so on; however, you who wish illusory happiness have to realize that you give yourself into slavery of money and goods. I have previously described through Sergey about all illusory attachments of people and now declare publicly: "God will not be able to understand you, understand your voluntary restriction of your space." Once again, I repeat that everyone should cover his Planet by scrolling It in his stomach, feel his Avatar, feel the Earth and all Its Spheres, feel the Solar System, feel all of humanity, and that you can allow yourselves a mink coat, car, house, and so on. Guys, now, those who barred themselves by only illusory spaces, will choking to death because of them. You intentionally bring yourselves in the one-dimensionality of death without a multidimensional perception. I think that you understand this information. So which problems can appear? In general, for information, My circle of people will not have problems because My circle of people receives information, so they are expanding, staying in 2 inseparable Spirits. However, you will have problems, and they will be expressed in your limitation of overall Spaces. Thus, stagnation and rot are because of this one-dimensionality of all mankind, they are experienced in everyday life like this: almost the entire bureaucratic apparatus is corrupt inside, in other words: they all want one thing: to fill their pockets with money, of course, at the expense of other people. If you view the whole rotten structure, we will see only greed, covetousness, and lies from top to bottom throughout the hierarchical ladder. Any structure or substructure in the plural branching leads to the final stage, in which "a" deceitful and greedy person, which occupies a

certain position, is engaged in trade, self-profit, and filling his bags with money of other people. Our system is built in such a way that any certificate or information are obtained by average person (which is not included in any structure and substructure) in an incredible battle. I'm not even talking about getting him the land which belongs to him according to the Constitution. Such idiocy is because every person on the planet Earth sees his happiness through the prism of the one-dimensionality of his space. However, I have always said, and will say that happiness is multidimensional in its basis, and if a person grabs the illusory happiness, he will have to deal with the multi-dimensionality, which will not be able to understand the narrow-mindedness, and direct all holistic Cosmic energies on the person. Therefore, many people will not be able to live in a new world; that's why I have already spoken how many people will stay on the planet: only $\frac{1}{3}$ of the total population of the Earth. People from all branches of the descending top-down structures and substructures will be the first who will feel discomfort of the multidimensional manifestation of holistic Cosmic energies on themselves. These people will be wandering around the world in search of refuge and the comfort zone to which they are accustomed. However, God and I - Zeranta close various hierarchical ladder, and Our Light of Truth will be manifested in your lives now.

I - Zeranta build a new State in the Ukraine, which will not tolerate bureaucrats and fraudsters, corrupt politicians, and venal presidents. I will stand in My Co-Creation, and My circle of people will help Me in it. There will be no structures or substructures in the updated State called Ukraine; this is no longer necessary. All earned funds by city, town or village in the updated State will stay on their places, so the prosperity of your cities, towns, and villages will depend completely on people living in these places. The laws will be adopted by decision of the local council in cities, towns, and villages; all living people will listen to this local council. Tax, to be exact 10% on profit of companies, firms or activities of a private person will be the only one; and it will be supported by the law; and the tax will go to the local council. Tax which is taken from activities of, for example, people of the city will go to the development of the city, people living in the town will go to the development of the town, and people living in the village - on the development of the village. All factories and enterprises which were bought by oligarchs illegally will go to the local council of city, town or village. The products manufactured by, for example, plant, will not be taxed and money or the item will go to the local Council during the sale or exchange of goods accordingly. The local council will pay workers of factory fixed wages from the profits of the

plant; the rest of the profit will go to the development of the city, planting trees, repairing roads, and water treatment. This scheme will apply to all factories, companies, firms, and individuals, which belong to the city or live in it. I - Zeranta will dissolve the banking structure, so it will not be at all. There will be no banks and institutions which are related to banks in Our State. And I'll tell you why: I described about banks through Sergey in the book "Free Ukraine", and so, the priests tried to control us through these structures. Banks are their notion.

I probably understand each person; you have used the services of banks. After all, for example, it is easy to get a bank loan and pay it without "special effort". It's easy to get the salary through the bank, and so on. However, look at today's environment, for example, people can not get pensions, wages and pay off their loan in Donetsk and Lugansk,. Where are the banks? And why were people tamed to bank services? Banks are the illusory project, with which the priests maintain control over all people. I talked about it, the banks also create the illusion of development of the state. They create the illusion that inflates the value of the goods to the papers called money. Gold reserve, which is allegedly under the control of the NBU is – fiction; for today, there are no gold reserves in Ukraine, but as a matter of principle, they have never been. All owners of the banks are contractors, in other words, they have signed a contract for an illusory possession of a certain network of banks. For example, Mr. Kolomoysky really is not the owner of Privat Bank, he is only a pawn in the hands of the priests, and he is paid an oligarchic salary according to his work. You have to understand that all oligarchs are bought by Western slave owners. Thus, because of the corruption of the "people who have power" there is no development and expansion, and in fact all people are slaves in our country called Ukraine. I – Zeranta will remove all the banks in our country, so you will be able to perceive the absurdity of their existence. All money earned by people of Ukraine will remain in our new State, in the country, so our state will be able to create prosperity in every city, town, and village in just one year. It is an undeniable fact. You have no idea what funds went to Europe and settled in specific hands. I will say that from the moment all funds will remain in our country, it will be enough half a year for Ukraine to shift the old road to the new one, and clear water of rivers and lakes. Ukraine is our country, and not corrupt oligarchs and presidents. We will take control of our country in our hands and show the world how to live happily, having everything you need near at hand. I understand you may have a lot of questions in connection with the new information, for instance, a new State, but I will ask each person

to reset all limits which are associated with the forced upon you illusion of the world. Once you can throw away all imposed by many years principles, requirements and their "debt" to the city, the state, and the world, you will be able to accept My new State in a blink. You have to understand that the priests have been canceling information in you about God, about relationships with Zeranta during many centuries, and imposed you a fundamentally illusory view of the world and the relationship with it. The program of the priests, and I have already talked about it, cut off the integrity from each person of the Earth, and introduced humanity in the state of the system, which included a number of items. I will highlight only a few, and you will be able to discover the established routine:

People necessarily had to pray and ask, then in desperation, people understood their limitations and accepted the selected idea about their lives and about themselves.

The life of each person was entered in a straight line, on which were designated "important" items. They are very familiar to you: kindergarten, then certainly school, which gives dubious one-dimensional knowledge. Why do it dubious? Because you get used to the fact that $1 + 1 = 2$, and after school you can not think differently. Integrated math is based on the multiple variations of constituents, and therefore, responses in the addition, in the multiplication and division correspondingly: sum, product and quotient will always be different. It is about mathematics. Other subjects also support one-dimensional knowledge, for example, biology: children become accustomed to understanding in school that each plant has a pistil, stamen, etc., but the teacher does not give conscious understanding of the integrity of the plant which is associated with the entire plant world, which is bound up with our planet, Solar system and the whole Galaxy. And the truth and expansion are concluded in this. Physics is taught in a very primitive form, all physical phenomena and actions are disclosed in a one-dimensional plane, for example, the force of attraction is attributed to only the Earth, but the planets of the Solar System absolutely are not taken into account, the variable component of attraction is absolutely not taken into account; this unit with the addition of multiple variations of multidimensional components of integral force of attraction has a different denominator, so the force of attraction changes. Changing the force of attraction leads to different results, for example, force can push instead of attraction in this derivative; the subject is detached from the surface of the Earth, and so on. It's the same with every subject of school education. I recorded a departure from the truth. This is of course a separate issue, but

you can make sure of one-dimensionality of thinking imposed by the system.

The system puts on a straight road another point after school: the university or institute. If a person does not want to climb this mountain, the system sets the other items for him colleges or technical schools. The system does not tolerate free people, so almost everyone passes the selected items on the line. And then, the line brings to jobs in which each person sits.

I am opposed to this system, and I wish everyone to have unconditional freedom. You, people, have the right to your lives, your thoughts and actions, to create your Projects which are approved by God and Me - Zeranta in the Creative Space. Each person should have his right to make his own choice in those or other actions. And this freedom I will Create in Our new free State.

You have to understand that I am describing a smooth transition to the described by Me three Spaces now; they were illuminated by Me in the 12th book. This is only the beginning of action to the manifestation of unconditional freedom. At this stage, God builds the initial Space, which is already introduced numerous changes and rearrangements. All the oligarchy will have to give someone else's energy back, so all their bank accounts will burn as down in the fire. All loot will go to the local council of the city, town or village, and will work not for one person, but for all people, on the city, the town, or the village; it depends on where the loot is. You can not imagine now what freedom will already be manifested in you at the initial changes and permutations. All human beings, for example, of a city or town or village will be able to find an occupation; it will be due to the fact that the lodge in which ordinary residents can express their opinions will be created in the local council of city, town and village. And when all the opinions of people merge into one, the decision on a particular issue will be decided in the local council. Therefore, in fact, you, people, will be able to create certain laws in your place. However, the laws will not be too absolute in their essence; and if it's necessary, they may be revised at any time. Any disputes and misunderstandings which arise between people will be resolved by the people on the place; however, if the problem is unsolvable, then this situation will be discussed in the local council.

You may question: what currency can be in our new State, but I think that let the hryvnia will remain, it was printed in such a quantity that the ratio of the hryvnia to the goods already broken. Thereupon we do not need to spend money on the production of new papers known as money.

We'll reconfigure inflation, which is currently formed artificially at our discretion. The concept of "inflation" does not exist; it is just a deception and illusion which is created by the banking structure, which is based on the consumption of Earth's resources. There will be no banks, as well as no absorption of the Earth's resources in our new State.

“Wow ... how can that be? And how will we, for example, be heated?” many Ukrainians will ask. Boys and girls, you have entered into the illusion which made you blinkered and introduced in the understanding that only by using the Earth's resources humanity has reached such “heights”. When I see corrupted or stupid politicians which prove: how much gas must be distributed to one or another region, it becomes ridiculous for Me. New technological developments of waste industry have been carried out long time ago; for example, you can get any kind of fuel, and even gas in waste industry by recycling household waste that accumulated in the incredibly large quantities in our landfills. And what prevents us to equip our homes new technological installations? Does lack of money prevent? Well, why do you think so? Your 10% of total profit will go to the local council. You, the people of the city, town or village will have the right to make any decision in the local council. So why do not to adopt a resolution, in which the percentage will be allocated from the General Fund of the city, town, or village on the establishment of high-tech boilers in high-rise buildings, kindergartens, schools, hospitals? Tell me, who can prevent us to make an intelligent decision? You must feel: you, people are free and have your right to certain decisions. This is only the beginning, then everyone will open a holistic energy of Markfis for which this task does not present any difficulties.

The question may arise about the presidency... Do we need a president in our new state called the Ukraine? Actually the whole point of the presidency comes down to what purposes: I described coming of each person from Heaven, what is happened to all of you, as well as Our State called Kraysta, in which there were not neither the president, and the parliament, nor officials through Sergey in the previous books. However, at that time, people were ready to the manifestation of unconditional freedom in themselves. After a certain time interval Our state has ceased to keep harmony and My Light, so the days were numbered, I have previously described this information. And then a number of states with limited freedom for each person have appeared, and people who lost themselves and God were living in these states. People who were living in numerous states generally did not seek and did not want to know themselves, of course for this reason God saw the need for the presence of

the president and parliament. Someone needed to take the leadership into their own hands, and the reason is your indifference to yourselves, to your own land, and to the Earth as a whole. But now I want to ask you a question: Are you ready to take a responsibility, holistic energies, and freedom of expression? If so, our new State has no more sense in the presidency. Well, if you are not ready for such changes, then...

Then I will illuminate some of the details for people who are ready to independent life. I still want to highlight derivative compatibility of our new State called Ukraine. But before this information I want to ask you, who will stand at the head of our State? I would like to One God was at the head because it was always, and I - Zeranta will illuminate our joint State. And then the rays of My Light will disperse throughout the world, on each person, and on each state, which just as Our own will want its free expression. And only in this life-giving Rhythm humanity will manifest his unconditional freedom.

Derivative compatibility of each person in our State will be compatible with the energies of the One God, and I - Zeranta will illuminate with My Light each person who will be able to feel Me and One God. Each person will be able to find his haven, his way, and his business, which is not caused either by the authorities or officials in this supernova energy. The bureaucracy was always looking for opportunities to subdue each person to certain rules and put in specific limits. However, every official canceled predetermined limits and regulations for him, and lived at the expense of other people on a grand scale. For this reason, a very large percentage of people of Ukraine was squeezed on all sides vise restrictions. It's strange for Me to understand the following: people of Ukraine work, for example, in companies, factories, firms, someone is engaged in business activities, and so on. But officials, who are led by the president, take many laws that do not help people in their work, but on the contrary, aggravate and toughen the requirements up for a working person, robbing a lot of Ukrainians. In other words, people who should feel you, and through understanding to summarize all Spaces, and then output derivative of expansion will present their claims to you, each of you. On the contrary, their actions are limited only to the claims: "It turns out people of Ukraine still have some Space for freedom!" However, they think that this Space should not be because every Ukrainian should be subordinated only to them. And they do everything possible to ensure that every Ukrainian was only their toy. But no, I will not already allow this tyranny to exist on My Earth and in My State. Maybe many people still do not understand holistic Cosmic energies, maybe do not understand the

derivative of a new world and a new State, but everything that I stipulate come into force of the reproducing moment. And who will not be ready to accept a God in himself, and therefore all His plans, will be in a dual position. On the one hand the feeling of the Earth will be in the same straightforwardness for this people, but on the other hand, the reproducible by God feeling of the Earth will have a multi-dimensional nature, so one-dimensional people will not adapted to the new manifestation of the reproducing moment. Therefore, they will completely fall out of the entire world order.

The reproducing moment will require people conscious awareness of 2 inseparable Spirits. Feeling and understanding Them, people will be able to find their landmark. If you say easier, by the example it will look like this: Imagine a man who wants to live in the new State. The man is completely sure that the rebuilding of the new State, which is worked by Zeranta will come into the life of every Ukrainian. He also realizes that it is necessary to reunite two inseparable Spirits in order to survive in the new State. He keeps this idea in himself and expands his Space and his horizons. Then he begins to realize that all people who lives in the new State bound by Sacred relationship and One God, and illuminated by the Light of Zeranta, so he can feel through himself and his body all people of Ukraine. Feeling all people of Ukraine, he can know what kinds of goods are needed those or other people which live in the new State. On the basis of his feelings (the derivative of spiritual Spirit), he clearly understands what kind of work to take (manifestation of physical Spirit); the work produced by him basically will combine 2 inseparable Spirits, so his received product will be in demand; therefore, the man will be in profit rather than a loss.

Upon reproducing a derivative of 2 inseparable Spirits, feeling Me - Zeranta, feeling at least people of the new State through One God, you, each of you will be able to be in demand always and everywhere, and be not at a loss, but always in profit. You can understand now that banks create the illusion of demand for human, illusion of 2 inseparable Spirits, the illusion of prosperity. Remove all banks in all countries – it will not be worse, only better. But if you understand the derivative of 2-inseparable Spirits, a derivative of One God, feel Me – Zeranta, and feel My light, each person can find himself and the strength to live vividly in the new State.

However ... if you cling to the old, cling to only one of 2 Spirits, cling to the manifestation of illusion, such as a banking institution, cling to the officials and the president, cling to a one-dimensional thinking, you

will not survive in the new world and the new State. And that's the truth! Actually I'd love to release each person from the need of banknotes. I certainly understand each person, because the system imposed you the illusion of banknotes from childhood, and you have set yourself on planted mediator. However, this mediator deprived the most important: life. And life after all, should be in every manufactured product, for example, in a car. Many people have noticed certainly in their cars manifestation of automotive life. And it's not an illusion, but a manifestation of an automotive soul. Existence of the soul is present in almost every commodity, but the soul is missing in banknotes. Money is basically dead and bring people only harm. I understand the following: money is introduced into our lives, and we have used and use this introduction very long period of time interval. I do not mean that today people have to throw away banknotes and to build their lives on the exchange of goods. No, getting rid of this illusion will not work so quickly, but making the inertia in this direction can everyone at least in mind. In general, the exchange of commodities implies some points. Many people who are used to live at the expense of other people, who are used to only deal with the paperwork, or resell certain products and so on, will not like this type of calculation. It will be due to the reluctance to make products with their own hands. However... whenever people found awareness in themselves, they do needlework, hand creation from which extraordinary creations were born. People are forgetting how to be the Creator of their work, addicted to illusory work and illusory money, so people can not experience satisfaction from their work, even money do not help you to be satisfied. And you always wonder at the end of your lives: for what did I live? I would like to answer: only for the illusion, so life passed you by.

I think you begin to understand expanding Space of the new State called Ukraine. And Our new State is already manifesting. A manifestation of the new State began with the Donetsk and Lugansk republics, and you are the witnesses of this. You also might notice that all illusory system, all hierarchical bureaucratic ladder destroyed in these cities. Oligarchs escaped there where the system still works. But it is just the beginning; what happens in Donetsk and Luhansk regions will happen in the whole Ukraine further. However, you have a choice, which will appear at your discretion. Why at your discretion? Because only you are responsible, in what way you will pass rebuilding and restructuring to a new State. If now the majority of Ukrainians comprehend the transition, comprehend their integrity, the reorganization will take place smoothly. However, if you try to keep yourselves and your imprudence, military actions will take place in

all regions of Ukraine, and as you understand, not all people will survive. Military actions take place in the summer in the Donetsk and Lugansk regions, but war may take place in the winter in your regions, so I foresee suicide of many people. But only you will be to blame that will happen. God has entered into its own on the planet Earth, and now no one will be able to get out or stay in the same place. God reconsider your position now, and if he finds that you keep yourself in the name of illusions, God will remove you from the Earth. When you are born, your life will take a maximum total up to 40 years while people next to you will be able to extend their lives to 650 years. Therefore, many women will wonder: do they need to give a birth to people who will live only 40 years? However, I will always be next to you, and prompt every woman in her choice. I will help you, and who do not want their expansion, unwilling to live in a new world and a new State. You will appear on the planet Earth, but that's just you have to remember and understand why what you wished for yourself will happen to you. However, I'm not going to close the output in the eternal and extend life, so you, each of you will be able to work out what you do not work now. How? However, the output will always be with you.

Let a new world and a new State manifest Here and Now!

Let all the wishes and desires of the conscious people manifest!

Let holistic Cosmic energies will come in each of you!

Let My Light illuminates Our new CoCreation!

And always remember: I - Zeranta Love everyone not only of the planet Earth. All of you are precious for Me, and there is neither the first nor the last, neither good nor bad for Me because an individuality which manifests its Space is laid in the holistic manifestation of human.

Tuning in to a universal understanding and good news

I think and I'm sure that many people are freed from the darkness of hopelessness after the chapter "New State in free Ukraine". Thereupon, I am convinced that most of people of Ukraine are ready to accept the new State. And then I will ask you to re-tune to new energies of new world and to be helpers of God. You may not really understand the events which develop in the Donetsk and Lugansk republics. Many people can not understand how the army of Donetsk and Lugansk national republics scores victory after victory. Therefore, I will explain the following: by the highest standards it does not matter for God who will lead Ukraine into the free expression which is realized by the people. However, for today forces of ATO, to be exact: people who fight, it is not clear for what, do not aware of overall processes at all. However, in contrast to the complete lack of understanding of people of the Ukrainian army, people of 2 national republics feel and understand plans of God, for this reason God and I - Zeranta illuminated and blessed all people who are involved in the implementation of conceived by Us. So it turns out: God and I - Zeranta illuminate forces of 2 national republics, and I'll tell all of you to understand: nobody can resist the army of God, and if some of people would think otherwise, the hand of God will remove you from the Earth. Even if you still do not want to get out of the state in which you can not determine to what shore to approach, you will suffer the same fate. For today, and I have already voiced this information, you will no longer hide in waiting "until the danger is past," no, you have to choose now: to go in the same Rhythm with God, or do not disturb Him. And if you choose do not disturb, then tell Me: what will be the benefit from you for the new State in this case? Exactly - it will be no benefit, you do not need yourself, so God do not need you too. I do not understand the fact that most of people of Ukraine took such a position that they "secretly" try to deal only with their problems. Moreover, they do not really care about what is happening in our country, and wait "until everything comes down." Everything will not come down, guys, it's too late, and I note the following: God will remove from the Earth all people who do not want the

meaningfulness, who are passive, waiting for peace, did not find their position in the overall movement, "storing" themselves and their children, waiting for the return in "peace time", in the stagnation of the oligarchy and mass betrayals; you will not survive in the new world and the new State. And that's a fact! The forces of 2 national republics, which are illuminated by God and Me - Zeranta will not stop at securing their regions, there is no sense in that, this force will move on - to you, in your cities, towns, and villages. Your cities, just as ours now, will be bombed, so only those people who will claim the awareness and overall Rhythm of God will survive. And that's the truth!

In any case I do not try to intimidate someone, not at all, I do not need that because I Love you, I'm trying to save you because you are left with less and less time for reflection. After all, God puts everything into place. Military actions take place in the city of Mariupol now, at this moment, and many people can not understand why do forces of the DNR occupy Mariupol? I'll explain: Mariupol translates as Maria's fields. In this case I mean God's mother - Maria - this is her fields, which are located in the city of Mariupol and near it. These fields carry energy of the return to the Heaven of those people who have sealed themselves in the Cosmic house. People from the Cosmic House, your hectares are in these places. The army of DNR will free Maria's fields for you with My help and help of God. I also want to clarify the following: the city of Lugansk translates as: My meadows, in which the energy of Spaces founded for hectares. The energy of My hectare is laid in Lugansk, so LNR will liberate the city of Lugansk for the realization of My dream because they can hear Me. In general, for the realization of My dream the whole Ukraine has to be liberated from the enemies that prevent the plans of God. I put the multi-dimensional energy of a Single whole in all cities of Ukraine; thereupon, Ukraine must be holistic and not be broken into pieces. Although, some people naively think that Ukraine will exist as separate regions. They also naively think that God will not visit them, and everything will remain the same decaying state. I will say again: God and I - Zeranta need the holistic country called Ukraine, so I will unite all regions of Ukraine.

The unification and liberation of Ukraine will take place in the coming year, so I derive multidimensional mathematical derivative of the surface of the Earth. To put it simply, I re-tune the soil layers of the ground to the joint work with the human. And now this work is very important and is done in a timely manner because for today, the third world war is almost stopped, and this is good news. I would never allow tormenting of reasonable ground because nerves and vessels, as well as the

abundance of capillaries will be manifested in the ground which is prepared to the cooperation with the human. And I hope numerous soil of ground will enter in a reasonable state in one and a half year, as it was originally. I am very glad that there were people who were able to take the awareness and balance the energy of a nuclear war. I will say: if it were not Vladimir Putin, Sergey Lavrov, Sergey Shoygu, I would not be able to stop the third world war, and multiple blows of nuclear weapons would cover 85% of Earth's surface. I certainly do not support Vladimir Putin in the annexation of the Crimea, but I agree with the work on the settlement, balancing, and extending peaceful engagements worldwide Here and Now. Regarding Crimea I'm sure we will be able to agree with V. Putin, and he will return Crimea to Ukraine in due time. I would like to tell a lot about these people because with their help I spent the rescue, which took away the Earth and humanity from the third world war. I will say that they have saved themselves, and I will bring them to eternal life. I will also say that Sergey Lavrov was Zakfar in one of his embodiments: I told the story about this person in the 11th book, and now he repents of what he had done at that time.

In general, I would like to explain once again to all people of the Earth: awareness is extremely important in this moment; you will not be able to survive without awareness in the new world. Many people who want to get out of the illusion "step on the rake" and get big bumps. "Rakes" come across only because most people see conciseness in the prism of their understanding and perception, but I explained to you a lot of times: tune in to your Planet, then scroll It in your stomach, feel your Avatar, and connect your parallel lives from other Planets of our Creative Space. Next, tune in to the founder of your branch of the family, and then you can feel Me - Zeranta. On feeling Me, you can always stay in awareness. And then you do not need to ask how to tune in to all of the above, because I have explained to you many times about the feelings and sensations which should appear in you. Spirit of compatibility, Spirit of association and multidimensionality lay only in feelings and sensations. Thus, learn to feel and sense, and not to persevere in your search. What are you looking for? God? God is everywhere and nowhere. He is, and He is not. Just as you are, and must be present everywhere, and at the same time you may not be. And you're still trying to get rid of the illusion, digging in your arguments. Reasoning from yourself, you will never be able to come to something, only to new forms of egoism and debauchery. Arguing about the feelings and sensations is too much specifically, you also will not be able to feel the energies of multidimensionality. I'm always amazed by

human selfishness! Why did you decide to enter the transmitted energy of information only in your worldview? And then talk about the finest moments of multidimensional basis using the mind? Well, no, it's absolutely not acceptable, and I talked about this. Clean your mind and start to feel and sense, and it is not necessary to reason. I found this narrow-mindedness almost in all mankind. For example, you always get 2 when you add 1 to 1, and I have talked about it, but why do not you consider this action in multidimensional manifestation because one of the answers can be 4. Why? Multidimensional base always involves a lot of variations of compatibility of the number, for example, we take one grain, add to it the soil of the ground and we will get at the output, believe me, not one or two grains. Such one-dimensional understanding is manifested in your perception of multidimensional information. I certainly understand: you are addicted to the one-dimensional thinking too much, so you have forgotten about multidimensional feelings long time ago. But is it necessary to re-tune? Do you remember the movie Avatar? One point was very properly shown in the film: "You can not fill a cup that is already full." You must forget all of the one-dimensional, to turn off your mind and to know nothing. I - Zeranta personally know nothing, but God knows everything, and I through the senses, as well as God, know everything. I think you understand the direction in which you should work.

I also would like to draw your attention to the numerous composition of the earth's soil. As you already know, the multiple layers of soil will come to life and will gain their souls in a very short period of time. Now you must understand the following: soil layers will want the conscious cooperation from you and will not tolerate boorish attitude. Soil layers are receiver and conductor of numerous holistic Cosmic energies. Cosmic holistic energies will fill each atom of the soil layers with Themselves, and endue the Earth with meaningful force. Because of this, agricultural enterprises should reconsider their attitude to the soil profile, as well as all people who are associated with these types of works. For example: diggings, plowing the soil layers, mixing them are absolutely not allowed. All soil phases should be in their places, only then they will be able to harmoniously carry out their functions. If people put their strength to the already restored soils without thinking and comprehension, they can tighten "as quagmire" people deeply, approximately on 10 meters, and believe Me, you will not be able to get out. Therefore, you should always feel and sense the manifestation of overall Spaces. Layers of the ground is a separate issue that will be considered by Us in next books. In the

meantime, Let's re-tune in to the conscious understanding of overall processes.

Recently I had to spend a great deal of work in identifying, reviewing and re-tuning some individuals in terms of the energies of the new world and the new State. However, for today, I have found and identified people who will take their seats in local councils of cities, towns, and villages. I will say that people are too much addicted to structures and substructures of egoistic state system. However, everything changes and re-tunes. Selected by Me people will lead the liberated cities, towns, and villages soon. However, people living in these places are not quite ready to fully accept the responsibility. As it turns out, at the moment almost 80% of the population of Ukraine stuck to their jobs, to their narrow beliefs, to their families, to the unconscious desire to be ruled and plunged into slavery. I kept thinking, ponder, and that's the kind of conclusion: I'm sure that to bring 80% of people to rebuild, to rethink, to adopt a multidimensional basis which is laid in the new State in a short time will not work. God and I - Zeranta will not wait for 80% of Ukrainians which are not awake, and have to bring these people out of life. However, each of them will always be able to return to the Earth and finally to expand themselves into a multidimensional basis. Next, I will ask all people to be understanding to Me and do not resist My decision; otherwise, you will hinder God and Me. I also remind everyone: it was talked about this moment for more than one century, everyone was notified, and I warned everyone before his embodiment on the Earth that at that moment people of the Earth will rule their future by themselves. And you decided to leave, to be exact 80% of people who live in Ukraine. It is only your choice, and I - Zeranta approve it. Therefore, you will leave the Earth in a very short period of time because three years later I am preparing a project for the settlement of all people of Ukraine on hectares of land. And do not be afraid of anything, because I will always be beside you anyway, I will wait for your decision to return to the Earth. The remaining 20% of people of Ukraine will continue their lives. You can ask Me what is to be done because many cities, towns, and villages will be deserted? I will answer: you should live, now live with all your soul and with all your heart. Together we will liberate Ukraine and make a new understanding of free life, which will disperse all over the Earth. Thus, all countries of the world will follow Our example. After all, people of Europe began to realize now that the whole system is built in such a way that there is no place for the manifestation of human desires. People in Europe have begun to understand events of the past 6 months, and they do not like the policy which bears enmity and

corruption. I foresee that people of Europe will rise up against the regime that kills people. And I am very glad of the fact that people of Europe are beginning to hear Me because it is their chance for salvation. Vangelia saw how all Europe will freeze and die out, but I see the change now: Europe will survive, not all people, but many people can be saved and re-tune to new energies of the new world and the new State - Our State.

We will show an example of free life, and people of Europe will want to join Our State because Our standard of living will increase many times. I already see and confirm that two national republics will liberate all Ukraine from the oligarchs and political structures, and substructures. I see how local councils will be formed in all cities, towns, and villages; they take control in their hands, and people who lead them wish only one thing with all their heart: living life. And it's not far off, and the first stirrings of the new world and the new State is already shown. Therefore, I urge you to throw all the bindings to the old and start to hear Me because only I - Zeranta will be able - I can get you into a new living life. After all, only I - Zeranta feel you and know the real you, none of all humanity does not know the true you. After all, only I - Zeranta Love all of you at present. After all, only I - Zeranta hear the voice and Rhythm of the CREATOR, and redistribute this Rhythm throughout the planet Earth.

The relationship of humanity with princess Ukok

Everything in the world has multi-dimensional relationship. Humanity naively divides the Earth into small pieces, but a holistic content of the Earth can not be divided. This is one of the reasons that divided humanity into layers and sub-layers of ranks and positions. People do not understand the relationship of overall Spaces, which fill and replenish the Earth at present. Humanity also can not feel deeply the Unity of holistic Spaces. And this, believe me, is domain of multi-dimensionality and multi-peace. Misunderstanding and not feeling of overall Unity have led humanity of the Earth to depraved thinking that is predatory in nature. People are used to direct their thoughts in the direction of debauchery and consumerism. However, humanity absolutely can not understand that they need energy even for such low frequency of actions. Earlier I - Zeranta explained the following: all humanity of the Earth has no energy for implementation of some ideas and actions. I also stipulated that you, each of you build your life only at the expense of My energy.

Archaeologists have unearthed the burial of the mummy Princess Ukok in 1993 on Altai. Archaeologists have immediately realized that they deal with unusual person, but archaeologists could not sense and feel deeply Me - Zeranta. For this reason, earthquakes and landslides have begun on Altai. At the moment people of Altai realized, why natural disasters take place, and tried to explain it to people and government of Russia. They said that it is necessary to feel and respect princess Ukok. However, people of Russia were not able feel and sense so subtly princess Ukok at that time. The princess was transported from one country to another and put in the window. Residents of nine countries contemplated Me, but ladies and gentleman: did you ask Me whether or not I wanted such treatment? It even never entered someone's head that I can not be against these ignorant actions. And then until 2012 princess Ukok was in Novosibirskiy Akademgorodok, later it was moved in the Gorno-Altaysk, and just now the issue of the return of the princess to the place where she was disturbed is solving. Scientists have studied My body for a long time, but it's a pity, these studies took place through the prism of the one-

dimensional perception. All the time I have been trying to explain to people who are learning my body, that people are multidimensional, and they saw only what we could "see" and touch. I'm tired of them. What is good in studying of My multidimensional body if they do not feel energies of the overall Space? The whole "mega- breakthrough" in the research was to compare the parts of My body to the bodies of people who inhabit the Earth Here and Now. Even the analysis of My DNA has not brought them to multidimensional conclusions. Scientists are stuck in their aspirations only on My shell, but to feel at least some multi-dimensional energies of My way ... it was beyond their comprehension. However, I - Zeranta also realize: there was a need to stay princess Ukok on the Earth's surface. And the goal was not in studying, but in addition to energy of Zeranta.

Exploring the body of princess Ukok, scientists have discovered the lack of internal organs, there was only a shell. Long reflecting on the theme of the missing organs, they came to the conclusion that the content of the body was buried elsewhere. However, scientists were not able to understand why the organs are betrayed the land in a different place. And I - Zeranta can open My sacrament just now.

I have previously described that some people can direct the thought for centuries to come. I also said that I - Zeranta easily direct the thought for billions of years from now. I had planned during my incarnation as princess Ukok the following multidimensional steps:

The organs have been removed from My body, and at the time I distributed the energy of all organs on the territory of Ukraine. This action was invented by Me and has reproduced multidimensional basis of feelings and sensations for all people of Ukraine, as well as for the whole world. The description of the value of My organs for people of Ukraine looks like this: every person who live on the territory of Ukraine anyway lived only due to the energy of My organs, someone at the expense of My liver, and someone at the expense of My intestines and so on. The derivative of such effect has been provided people the multidimensionality of the output to the eternal beginning. However, for some reason people decided to domesticate My energy and use It only for selfish purposes. I have been explaining people of Ukraine during ions of non-existent time: You injure God and yourselves, you can not use My multi-dimensional energy only for your own benefit. However, what was my surprise when some individuals started to pull on themselves 30% or 40% of energy of My organs and use such power for the involvement of many people in slavery of only his person. I do not mind if a man will take on himself, let's say, 100% of energy of My organs and will use the multi-dimensionality for

controlling of overall processes in the interest of people all over the world. However, I am totally against the fact that some individuals use My energy for their and only their purposes. Such actions are not acceptable now.

Then, you may have the following question: how does the energy of organs hold out on the planet Earth? I thought so: the energy of My organs is held by the bodies of several people. I will highlight one person for you. V.M. Pinchuk is the bearer of energy of the shell which holds out the energy of all organs of princess Ukok. V.M. Pinchuk also is the bearer of all seven religions, for instance, the energy of Christianity is in his head, and Islam occupies an area of gynecology and so on. You may ask: how the part of body in men may be associated with gynecology? This is a very delicate moment that highlights the following: a man just like a woman should have all the organs at the energy level. I provided the Space of gynecology for Pinchuk, and he has been keeping it until now. Next, I want to explain the following: being the bearer for princess Ukok, being the bearer of seven religions, Mr. Pinchuk has used this multidimensionality only for his own purposes. Having such power, Mr. Pinchuk brought from Ukraine all relics and gave stolen in the hands of individuals, who should not even come close to the energies of relics. Having such power, he directed the flow of energies of income of Ukraine in the same hands, and received a decent amount on his bank accounts in money equivalent for his work. Having such power, he was welcomed in any society and the community, be it Islam or Christianity, and so on. However, seeing his "work", I made a decision now: to remove the energy of the shell of My body, remove energies of all seven religions and leave him alone with himself. Next, I would like to explain the following: I will work and dissolve the energy of each seized religion. And I will explain all people of the Earth that I - Zeranta am a mother of your God. Do you understand what I say: I - Zeranta am a mother of your God. I am the mother of Jesus. I am the mother of Mohammed. I am the mother of Allah (I did not make a slip in speaking), and so on. Thereupon, you need to understand that all currents and religions converge with large stream only to Me. The seven Gods are always consulted with Me to produce even a small action in all time intervals. And then I will add that the seven Gods did not always hear Me, for this reason, they reproduced imbalance which I align now. And at this point of timeless I have to explain to all mankind: if you do not want to leave your Gods alone for some reason, then I'll come to you, holding a sword in a hand. I am generally indignant at your actions, which have energy of "Velcro". You are so used to adhere to someone else's belongings that I am just astonished. As soon as I asked

Jesus to come down from all the temples, in other words, I agreed with him about returning him his energy, then in a flash you - Christians went over to Islam. Do not you think that this action is funny? Looking at such thoughtlessness, I have decided to withdraw the energy of all religions and agreed with all seven Gods that they took their own to themselves and closed all entrances and exits to their Spaces. Thus, for today, all energy of all religions is withdrawn. Did not you notice the change? Already – that's all; you have nothing to cling anymore. Already - that's all; you have no one to adhere anymore, I mean that your life is completely up to you now.

I'm just tired of your indifference. Gregori Grabovoi said that the second coming of Christ has happened, and you called Gregori Grabovoi charlatan. However, at the same time you are addicted to his energies and you could not imagine your life without them. But what right do you have on the energy of Christ? He came to save only 2 thousands of people who are on Donbass now. You did not even think what about Jesus said in his time: My second coming will be in 2000 years. This time has run out, so He is on the Earth, and you did not even want to find him. Now, if you are not able to re-tune yourselves and continue your predatory production, then I – Zeranta will have to come to you with a sword. Energy of My sword will remove every invader from life. And I do not care who will be in front of Me, I will remove you from the Earth. **And there is a solution, and only one way out: to come to sensation and feeling Me - Zeranta.** Moreover, we always had such a relationship, but you forgot the Source.

Therefore, okay, we decided this. Next I would like to return to the topic of princess Ukok. Look what picture appears for today. People of Ukraine live at the expense of energy of organs of princess Ukok and do not think at all about their multidimensional state. For example, P. Poroshenko holds 40% of these energies, and attached to his person 1 million 227 thousand people of Ukraine. In other words, people who are indicated by Me can not imagine their lives without P. Poroshenko at all. Everything would be fine, but he made a division of people into "bad" and "good", so he introduced the madness in thoughts of all Ukrainians, and 1,227,000 people share this opinion with him. God and I - Zeranta are indignant at his actions and thinking of people who adhered to him. Therefore, I have determined his location with all people who adhered to him: I will put the soul of P. Poroshenko on Mount Athos, and I will close the hole with his skull. 1,227,000 people who adhered to him will be under him. Then, after a certain period of time I'll come down to P. Poroshenko and I will demand performing a specific job from him, to be exact: he has to prepare for a certain period of time 10 people of a specified number of

people who will be fully collected, both physically and spiritually. That's why; I can advise him to study carefully the structure of a human. If he does not make this job, his imprisonment will last sine die. All these people will be with him. Phantom of P. Poroshenko will be manifested on the Earth, but the length of his life will measure as follows: when the length of life of people who recorded in the book of life is for example 160 years, the duration of life of P. Poroshenko will be just 2 years. Therefore, women who will be forced to take him in her womb should understand why it is happening to them and to him. I've always said and will say: you should never curse because you will work out your action. And the first woman on the Earth which will receive him will that woman which cursed him more than anyone else. When the length of life of people who recorded in the book of life is 650 years, the period of measured life for P. Poroshenko will increase to 40 years. As well as for P. Poroshenko life will be measured for you – people who adhered to him.

Y. Tymoshenko has captured 30% of energy of organs of princess Ukok,; however, if we consider one moment, then P. Poroshenko has 10%, which Y. Tymoshenko shares; for this reason she got 40% of energy of organs of princess Ukok. People and their number is 1 million 450 thousand also clung to Y. Tymoshenko. I can not understand one thing: guys, do you figure out, where you get involved? Probably not, but ignorance of the Universal process is only your fault. Y. Tymoshenko will have about the same work as P. Poroshenko, except that I will not let Y. Tymoshenko come to the presidency, so I will reduce the amount of work, to be exact, instead of 10 people, she will need to collect 5 people. And then I - Zeranta will come down to you guys, and I'll need to provide collected people, if you can not make this job, then your imprisonment will last sine die.

I - Zeranta also want to warn V. Putin and many Russians: if you do not return princess Ukok in her abode, I will drop to you a lot of comets and meteorites that have agreed to take part in retribution. You can not imagine what it would be like, people of Donetsk and Lugansk regions can tell you about shellings, for example, of the launchers "Grad" and "Tornado", but it is toys in comparison with those that will fall on you from space. I measured time for you until November, and then, if you do not hear Me, I will not save you. I also want to add: princess Ukok will be returned to her abode anyway, I - Zeranta personally say: I do not want to see any "guests" next to My abode during 10 years. Those who will disobey and come to Me will be sick with an incurable disease in a moment. I gave the information, so then do not blame anyone. Moreover,

return those things that you have withdrawn, to be exact: My comb, crystal hairpins, and My mirror!

Next, I will continue about activities of V. Putin. In general, anyhow, the propensity for serving is traced in the work of V. Putin. I was indignant at his actions and thinking, as soon as someone started to threaten his person, he was turning the situation and expanded himself in all Spaces. I can not call this acting as an extension, for the reason that determines utopian state and thinking of the owner of such actions. Instead of serving only God, he serves anyhow all those who want to save him from destruction. He serves Me - Zeranta, he serves the organization of NATO, he serves all who can protect him from anything undesirable. It is strange psychology, which I can not understand. I foresee that V. Putin will "deflate" as a politician very soon because I - Zeranta leave him. You could trace My work with V. Putin earlier, I wanted to bring him to life. However, to my regret, he does not want that. Moreover, who should be brought to life by Me? It is possible to pull out in living life a person who is starving this living life for himself as well as for all humanity with all his heart and with all his soul. And V. Putin wants only one thing: to protect himself, let's say, from the overthrow of the throne, from the removal him from the oil reserves of Russia, and so on. However, it is not so bad; I scanned the activity of all kinds of industrial production as much as possible in Russia and was indignant at the actions of V. Putin. I carefully open the actions of L.D. Kuchma and his son-in-law Pinchuk, and in Russia, as it turns out, there is the same pattern. V. Putin has sold all assets of enterprises of different orientations and assures the citizens of Russia that he raises the production of "domestic" product up to grandiose height. It is a blatant lie! And I - Zeranta testify that V. Putin has sold Russia to Western oligarchs. He even asked a worldwide organization of NATO to bring troops to the territory of Russia in the event of his removal from power. Thus, such Abracadabra turns. On the one hand, V. Putin has created an image of a strong man, a wise man, a man who bit by bit restores the economic and commercial activities in Russia, but on the other hand, he has sold out everything and selfishly fills his pockets. Well, what is it? I want to ask, for example, people in Ukraine and Russia: people, does everything really satisfy you in your countries? Do you really want only one thing: slavery for yourselves and your families?

I will call now approximate number: 250, this number include so-called "elite" of slave-holders which collect indecent great "tribute" from around the world. They bought all the companies in Ukraine, Russia, and other countries. They unleash war and play countries, as in the cards. They

consider themselves as slavers. I - Zeranta know each of these people, I also know that if we remove now these 250 people from the Earth, then others will come in their place and will say something like this: we do not like them because they enslaved billions of people, but we enslaved just millions... Therefore, I will ask each person of the Earth to seek the cause of the situation only in himself and do not blame other people. It is you, people, do not penetrate into the overall processes at all, do not even want to be aware of the world situation, without mentioning Universal processes. I can not understand how you can build your lives on those interests, which cover only needs to work better said, money; needs for food; needs an apartment or house; in the car; needs in the family, children, wife or husband, mothers and fathers, relatives and friends... I do not miss anything, do I? Well, of course, a need for "health", because it is one of the most important aspirations in your lives.

However, unlike your primitive desires and needs, the so-called "elite", to be exact 250 people also hunger after power in addition to your aspirations. That is what separates you from them - the "elite", the so-called worthy people. It is quite simply, the desire to just power. All of you swim shallow, very shallow. The depth is not available to you. In shallow water you are visible, you are calculated, you are naive, you're predictable, you are insignificant ... You as the fry are caught in the network, and are mixed with other fry, saying that these fries are good, but those are bad. You get used to any kind of tearing of the whole, you divide into good and evil, good or bad without understanding the overall Spaces at all. What kind of life is this? What are you turned? Your primitive life become nauseous.

Wake up, it is time. People! Manifestation of multidimensional life is present in every centimeter Here and Now, but you are still looking for evidence of your multidimensionality. General processes arrange summation of the actions, but you do not understand the relationship with the emerging events at all. You think that P. Poroshenko so, because nothing better to do, makes his claims to V. Putin. No, for reasons, P. Poroshenko senses by intuition the energy of princess Ukok and her whereabouts in Russia. For today the president in Russia is V. Putin, so P. Poroshenko makes his claims to him. His claims are directed toward V. Putin because V. Putin has a little, but illusory power in decision-making related to the princess Ukok. P. Poroshenko naively believes that V. Putin is to blame for the fact that princess Ukok takes the energy of her organs away from all people of Ukraine, as well as him. P. Poroshenko is in a panic now, he senses by intuition: as soon as princess Ukok will take her

own, he will be "left with nothing" alone with himself. Western politicians, as well as P. Poroshenko sense global change, but as it turns out they can not to understand and feel deeply what the changes are. Rays of energy of My organs from Ukraine were distributed worldwide. All humanity conceived a liking for My Light and forgot the following: My energy of My organs created a multi-dimensional platform for all people, giving each person the Space through which it was possible to collect himself. However, almost all humanity has settled on My platform and went in for no obtaining itself, but vice versa, isolation from the surrounding of the multidimensional Spaces. Almost everyone lived only for his one-dimensional, often harmful to all Spaces actions. Your one-dimensional production almost erased each of you from the visible world, divided each of you into tiny pieces that I - Zeranta always collected, so you could be born on the Earth. Incarnated on the Earth in bodily collected state, each of you started to pose as grown wise person who can do everything, but in practice, as soon as it came down to it, only shrugged his shoulders, saying, and what do I have to do with it? Yes, you, guys, have to do with everything, take a look and see what you have made with the Earth and yourselves? Only you, each of you, are guilty in what happened and is happening. Princess Ukok in her incarnation foresaw complete disconnection of every human from the divine essence. Therefore, She made a decision to go into a state of a mummy, bury Her organs in all regions of Ukraine. And Her expression of the will was executed. And people rush about their own narrow aspirations without understanding overall processes, without giving a report in their thoughts. Many people are willing to join Russia, many people - Europe, selling Me and themselves. However, that's all, guys, so it will not work, and you, by the way, know it, and so you rush from side to side.

And God will come, and He will separate using the sword forces of darkness from the forces of light. However, it's up to you on which side you will be. Next I will say that humanity, so to say, modern scientists have not been able to feel the princess Ukok at all, they could not even approximately identify the age at which the princess turned into a mummy. However, I'll tell you: At that moment I was 145 years old, and I looked young woman. Are you surprised? There is nothing to be surprised; life of people at that time was about three hundred years. Scientists of our days were not able to extend themselves enough to grasp this information. Because when they approached to the princess, they always saw only what they wanted to see, not what I disclosed to them. And people, who are manifested now on the territory of Altai, are my family, who was with Me

at the time of My incarnation as princess Ukok. I will say that the relationship with the princess did not stop, and they feel and love Me.

I wish to everyone: do not doubt in you Love, your faith and your feelings to Me. After all, only I - Zeranta know and Love you. Nobody else on the planet Earth knows, and therefore, Loves you, people. Believe always in Me! Feel always Me! Love always Me! You, people, will never lose yourselves, and, therefore, will not die only in such a multi-dimensional manifestation. Namaste...

Journey

Sacred Light of Zeranta illuminates the multidimensional manifestation of all inputs and outputs in living life. And it was and is so, so each person has to sense and feel My Sacred Light. I, in my incarnation of princess Ukok, have taken into account many hollow spaces in people, formed as a result of leaving the God, and the Divine essence of a man. I have created the Earth's energy grid, which covers humanity with its Light every second. The Earth grid is designed to combine the timeless multidimensional basis of Cosmic energies; and thus guide people to comprehension of God in themselves. Interestingly, the multidimensional basis, which covers overall Spaces, reveals overall processes is reproduced almost in every person. This is due to Me - Zeranta and added to Me energy of princess Ukok. I - Zeranta reproduce multidimensional basis and illuminate the incredibly powerful energy in the energy grid of the Earth. Energy grid of the Earth affects every person, bringing a new level of perception itself: a multidimensional person. This action was deliberated by princess Ukok, and now I - Zeranta continue to reproduce Single multidimensional aspiration.

"And what is strange and incomprehensible at all" - says princess Ukok (it is My incarnation – of Zeranta). "I could not think that people become so empty, come down, and turn into a meat dish which is smeared over the wall by anyone who feels like it. At the time of My incarnation humanity felt their God and Me, only few felt Me partially, but what is happening now looks like a complete godlessness. Humanity can not survive in this position because the energy that I have lined up in the energy grid on the Earth, will dismember each person who does not feel and do not understand. Bodies of people will not be able to endure multidimensionality which is reproducing now. I know now it is necessary to feel your body as a multidimensional assistant, and organs as a multidimensional instrument on which you need to play. However, people do not realize the value of their bodies and organs; do not even think in that direction. Well - it's just their problem. I was against exploring My body, but at the same time I was ready to provide multidimensional information about a person, and about numerous properties of the body. However, how to explain relevant motion to the cripple who does not have

neither feet nor hands? Believe me, it's impossible. I even specifically turned My body with tattoos outward to the scientists turned their attention to the drawing. The image of the deer shines on the left shoulder of my body. Life-giving Firebird is painted on the belly in the area of appendix. Drawing on My shoulder is preserved, but on the belly is not preserved practically. However, scientists considered drawing on My shoulder, as something spontaneous. I have been called to see the side of cooperation deer with Me. However, this science has remained outside the zone of perception for them. What a pity ... Deer named Aktava has kept the Space of cooperation of animals, birds, insects, and flora with people, and offered to seal this Space on My shoulder. Aktava was and still is my friend, as the Firebird which stores mega-Space of air corridors, better to say, cosmic labyrinths; which stores Our Co-Co-Creation: Mega-galaxy. I also would like to add that archaeologists have uncovered the burial of 4 horses near My abode during the excavation. Disclosing of My abode has fogged them, so 2 horses were not found. However, a year later archaeologists got the following information: the locals insist that you did not find 3 horses, and 2 of them are near the abode of princess Ukok, and the third (seventh horse) had to render to the mould in Ukraine, but as a result of carelessness of 2 people, she was buried at the foot of the mountain called Belukha. Archaeologists have tried to go back and check this information, but I – princess Ukok, or Zeranta (as you prefer to perceive) has put a ban on this action.

Many people have longed to visit at the foot of mount Belukha, but many of them could not comprehend My call. I encourage people to find My 7th horse so that I could transfer energy of the spirit of My horse to Ukraine. And a small group of people could feel Me and consciously to go to the mountain called Belukha. They have found the burial of My horse and even stand 15 minutes in that place. It was enough for Me to move the spirit of My horse to Ukraine.

Princess Ukok now will tell the following: "I have never died, and God – is the witness to this, so listen, people, and hark. You see time intervals as something that has a direction. And the direction has built in direct straightness in your view. I want to ask all of you the question: if the time to stand in a straight plane, tell Me, how can I have a conversation with you now? You have departed from God, so that you have just assumed yourself every your action. But how can this be? This is rudeness and selfishness. You dispose of the value of time intervals as something straight. You have assumed time, but did not feel deeply the life-giving and conscious moments. This has never happened in the history of

humanity and the Earth. You have departed from God, so that after only one phrase God - your Father, each of you smiles, saying: we do not know our God. I foresaw this situation, but people dropped to such an extent...? Next I want to lead you to timelessness and let to feel deeply living Space, which fills the Earth and each person.

I suggest you the journey together, and We go to the Space of State called CraySta {land of hundred}. I created this state, and Sergey helped Me, his name was Aron at that moment. I want to say that it is impossible to bring people in volumetric spaces without Love; Aron Loved Me in numerous moments of happy life, and this Love was and still is the highest frequency in the entire history of the Earth and humanity. Being in Love, Aron and I have manifested the Space of a free State, in which many people were pulled. Aron and I considered the following: free State CraySta could exist only in our joint energy, so Aron and I had to attend each moment of living life of free State CraySta. Together we spoke our manifested speech, which reproduced our joint incarnations in free State CraySta. Before leaving the Earth Aron and I have dissolved our bodies, and then we appeared at the appropriate time on the Earth in our free State CraySta. And we are always recognized, people of our State have always recognized us, and always felt Our joint energy of multidimensional expansion. You now can not imagine what people were capable of at that moment, the manifestation of God in people allowed to reproduce incredible Creations which have added happiness, joy, and Love to the overall Rhythm. Upon leaving the Earth, many people wished to return to their hectares, and I - Zeranta always helped people of My nation to realize their dreams, so people who wished their return, could recreate and improve their hectare of land due to many incarnations. You will not be able now imagine what a living life was for My people, which were in unconditional freedom; together we could create such Creations to which many people did not venture in the entire history of the Earth and humanity. In our free State on their hectares many inhabitants have created space ships and traveled on many galaxies. This experience at that moment brought people incredible extension that reunited multidimensional parallel lives in one extent. Of course, I warned people who dared such an experience that not everyone will be able to endure the physical combination of his parallel lives, but at the same time I understood: why not ... Together We and My people experimented in Creations and Co-Creations, it was like a tale, in which unfortunately people have stopped believing now. I was happy with Aron, and he was able to keep multidimensional balance in himself and to be in Love to Me, and to

everything that EXISTS. And now I – princess Ukok can not recognize him, or rather, I certainly feel him, but he lost himself very much. But as he was ... and remains ... He could enter the Space of any bird in the Space of any animal. Nobody has been able to experience it yet in the history of the Earth and humanity, but he has been able. He dissolved his body in a flash and by mutual consent reunited 2 Spaces: his and, for example, of Lion. In turn, Lion could feel and sense the multidimensionality of Spaces of Aron, and through him the multidimensionality of almost all people of the Earth. And then being in the integrity of multidimensional overall Spaces, Leo had the opportunity to share his experience with other lions, which are staying on parallel Planets. This experience brought the expansion of volume of human communication with animals in many Spaces. This experience is still very interesting from the point of view of the multidimensional expansion. And I always helped Aron in his beginnings. He showed by his example to all people of our free State, what Love is able to do, and what people are able to do through reproducing a high frequency feelings and sensations.

I just a bit digress and remind all people the following: your main problem is that you selfishly think every your action, and then seal the energy of your selfishness in manifested. You always say: I screwed for example the wheel to the car only due to my Herculean efforts. It is me and only I, for example, chopped firewood. It's me and only I reached such respect in life, and so on ... You have no idea what cargo you bear ... You can not imagine in what you get involved yourself... Lack of knowledge of Universal processes does not guarantee you forgiveness. Therefore, the CREATOR, Zeranta, Single God, and your God will ask each of you: who are you? We do not know you because you have denied Us ... And what will you able to say in your defense? You have created blood, so blood relationship. And every your action, movement steeped blood-soaked. You can not even raise a hand without the impact of blood which is flowing in your blood vessels. Blood relationship is manifested in every your movement. Moreover, only selfishness and denial of God are laid in blood relationship.

I can not understand you, God has been reproduced in Me, as well as in My people. Each movement of the human must always be impregnated by God. We had no blood, just pure water, which was structured by God. My body has never grown old and always looked young and full of life. Now I do not see almost any person who dared to know himself in all his multidimensionality, and in all his Love. For today, only Sergey is ready to get himself 100% and his Love. But people, why do not you want multi-

dimensionality of God in yourselves? And I will help Sergey to reveal Love, and the multidimensionality of God with It, but there is a very subtle point: when multidimensional merging happens in Sergey, then Love will rise and will collect him at 100%, this means that in one moment you - people of the Earth will wake up. However, not everyone will be able to accept himself in himself, so you will die in a blink. Only those will remain on the Earth who does not fear himself and his multidimensionality. Now I will dwell in Sergey and give him multidimensional feelings and sensations of Love, His Love. I do wish this with all My heart, and he, I am sure, will be able to fix in himself his Love. Then he will be able to be in his energy, and from himself feel and Love. I agree on this experiment, which realizes for the first time in all existence of the Earth and humanity. This experiment will require decisive action from Sergey. These actions should be aimed at establishing and reunion of timeless cells of his integrity. His Love which is transmitted by Me will open timeless portal, and he will be able discern his holistic nature. And now I – princess Ukok or Zeranta wish this Co-Creation with you. We talked about this action, do you remember? Together, holding each other's hands, both of us made multidimensional speech in which I mentioned your holistic reunion, which is illuminated by your Love. I said you at that time that you will lose yourself completely and there is part of your guilt in it, and part of guilt of all humanity. And you realized at that moment that you'll lose yourself more and more with each subsequent moment. And it is only because you lost your balance, and missed your Love which could not be reproduced by very high frequencies by you. Of course, and I understand if at that moment all humanity found freedom of expression, which is manifested only in Our State, you would have never lost your Love, but ... happened what happened. And only now is that long-awaited moment for you which we have conceived, holding each other's hands. At that moment I said to you: losing of yourself pass as the second for your. And you said: Thanks God and You for the faith and for all-forgiving beginning.

As soon as Aron lost the necessary frequency of his Love, I could not be with him. Also, for Me, for all world appeared a lot of problems that have already reproduced in every moment of timeless interval. I understood that Aron became the enemy for Me, rather than a loved one. The enemy is not in that meaning that is now common to all humanity. I'll explain now: his Love to Me has been creating Mega-Space for Me, which was extending to the whole Creative Space, in which are Created all Universes and all Galaxies. His Love to Me created a balance on the Earth

and in Our Free State. And I've always been aware of the following: while he Loves Me, nothing can threaten to Me and all Creative Space. However, as soon as he loses his balance, he immediately loses high frequency of his Love to Me, so - this is the end, which will reproduce a new beginning. My latest incarnation with my husband Aron in Our free State has been reproduced in the role of princess Ukok. We lived together for 108 years in our last happy incarnation. And then, as you know, priests organized a large-scale war with Our free State. Previously this information was described. Moreover, there is a subtle point: the most important priest at that moment was a girl named Karana. She stirred up the people of other countries to the war who were not included in Our free State of KraySta. Then, you need to understand more subtle the following: Karana was the first wife of Zar, or Aron in one of numerous moments. Also in one of numerous moments Sergey, or Zar incarnated on the Earth and met with seven priests to harmonize them, but as you understand, in this case, math is simple: one against seven equals defeat. At that moment he did not hear Me - Zeranta, and I cried to him that he should not to enter into relationship with seven priests because God was not reproduced in him at 100%. And one of seven priests was Karana.

I – princess Ukok knew that Karana has claims and contempt as well as her shifty evasions against Aron or Zar (Sergey). In this regard, I warned Aron that in any case he should not to enter into negotiations with Karana. However, I could not explain to him what has caused my warning, I hoped that it will be enough My word. I knew as soon as Aron meet Karana, the balance in him may falter, and Love will lose high frequency in this case. I did not know at that moment under such circumstances they met, but I was sure of the following: Aron Loved Me, felt and listened to Me. And I saw just now how Karana tried to draw Aron into her war. Her tricks surpassed all reasonable explanation so the meeting has been held. I also realize now that Aron had to meet her to stop the senseless war, and to remember who was Karana. And as soon as Aron remembered Karana and realized what she has become, then My Light has frozed in him for a millisecond. Karana used this millisecond and stole 35% of the integrity of Aron. After this millisecond Aron felt that there was a change in him and at that moment he realized that most of his integrity is stolen. But how? He realized only a few days later. If he realized it right away, he could return it to himself next millisecond. However, then Aron ceased to be himself, and I felt it in a blink. He ceased to hold the balance. He missed the high frequency of Love and could not Love all Me, but only in pieces. In contrast, Karana has strengthened even more. And in that moment Light of

Aron stopped shining for Me. And I realized that Our free State without the highest frequency of Love is doomed. Can I blame Aron (or Sergey) in what is happened? Probably not. And a very subtle point is laid down in this: I foresaw that when Aron remembers Karana, he will resent her actions. I also knew as soon as he manifests resentment in himself, he will lose his balance for a moment. However, he tried hard not to lose his balance, so a millisecond reproduced instead of a second. However, it was not possible to stop Karana, all her insides crave for at least small, but the hole for the final blow, for sophisticated theft.

I do not want to justify Aron (or Sergey) in what is happened, I just want to show to all humanity very delicate moments from which to emerge victorious means to manifest all of yourself, all your integrity. However, if integrity is not manifested in a person at 100%, some delicate moments should be avoided. And this is true. During the first flood on the planet Earth Zar has lost 35% of his integrity, which was stolen by a woman, and I - Zeranta mentioned this information earlier. In this regard, it was manifested 65% of integrity in Aron. And even with this percentage of integrity Aron loved Me so much as no one yet loved in the history of the Earth and all humanity. His Love to Me was the highest frequency in Our Creative Space, in all Universes, and Galaxies. This Love allowed Me to Create and Co-Create grandiose Projects from which all Cosmic energies were freed in the rapture.

Yes ... those moments were filled with happiness, joy, and Love. And I am thankful God for these moments ... After Aron lost his integrity, I did not want to see him, and 3 years our roads did not intersect. However, Love in Me told Me what is happened, anyway, had to happen, and Aron took on such a role, which is very complex and can be confusing to many, but this role was necessary for God. And from a certain moment I realized it. In this regard, I made following decision: the Spirit of the State KraySta is necessary to reproduce in a place which is now called Ukraine. I led the hermit's life during 10 years; it was necessary for Me. For 10 years old I was able to prepare a reproducing moment in which Our free State will be manifested again. I took into account all the inputs and outputs and reproduced My incarnations, and distributed timeless and time intervals. Then I called Aron and told him about My plans which are approved by God. Then I asked him: "What role are you ready to take?" His response was: "I want to help you, and I wish to take on the most responsible role" - Well it's your choice, - I replied and asked him about the following actions:

First, I thought over and want you to do the action that will recreate the mummification of My body. This action is very important to the certain points.

Second, I chose a place for My abode and want you to make burying of My body.

Third, you have to bury all organs of My body in a place that will soon be called Ukraine.

Fourth, you should not follow Me, you will incarnate in Our place 1,000 times. You should seek out My abode and settle nearby in each incarnation.

Fifth, I will call you and will demand from you the necessary work at a given time.

Aron has agreed to implement all points, and I did not doubt him for any second.

For today, Aron starts the holistic reunion, as I promised. However, you should understand that this reunion would not be possible without his participation. In this regard, I want to ask a question to all people: Do not you want a holistic reunion in yourselves? Do not you want to live happily? Do not you want Love for yourselves? In contrast to you, Aron wanted it during all incarnations, which were in a dream. And what do you want? Looking for your actions, I can just resent. There are practically no people who want living life now. However, living life is already reproducing, and God of each of you is reproducing with it. Of course, I understand that you are waiting when someone will work out himself, and then one day you all will wake up and ask yourselves, "How did I live all this time without God? Well, it's obvious that there is no life without God." That's understandable, but waiting until someone does all the work for you, it is not humanly. Is not it? There is no help from people, not at all. I would like to see how the majority of people have found themselves and continued their lives, but I foresee something else... I would like all to survive, but, as you understand, looking at humanity and their needs, it is an impossible wish. And Love takes Me away from the pity in its Space in which I - princess Ukok or Zeranta build for myself a manifestation of multidimensional incarnations on the planet Earth. I see myself as happy, loving and loved, joyful and always staying in Love. And I wish that you, each of you could reproduce himself in every moment of endless and ever-expanding life. And I will help each person who wants with all himself, with all his heart to be multidimensional happy, multidimensional joyful and multidimensional Loving person. I - Zeranta know how to revive the integrity in each person. I also realize and feel My Love to all humanity.

And when the person pronounces aloud for all to hear with all himself and with all his heart the following: Darling Zeranta, I wish with all my soul to gain myself, I - Zeranta will help this person to gain himself.

Our joint journey in the free State under the name KraySta has ended. However, I want to say to all people: now Our free State will be manifested in a country called Ukraine. Aron has fulfilled his role and practically completed My instructions, and I have no complaints to him.

And now he will remember himself and his integrity, and then restore all lost cells of himself. Then I will have my multidimensional conversation with him, and then it will be seen in which direction we will be moving on.

In addition, I will say that there were written in the scriptures: “and a chariot of seven horses will come. And a girl will sit on the chariot. Thunder and lightning will accompany the chariot. And then sky will let itself go, and stones which exceed in diameter many mountains will appear with immense expanses seem. And these stones will fall on people, and people will not be saved.

Return princess Ukok in her abode, and the sooner the better for you!!! ...

Timeless

At the time of Soviet Union most people could feel themselves one-dimensional happy and one-dimensional joyful, but these feelings in most cases covered only part of the physical Spirit. Senior officials used only the energy of princess Ukok in the work related to the whole country and all people at that time; however, using of My energy mainly was directed to dispose of human resource. I – princess Ukok or Zeranta have been trying to give feelings, give explanations to the governing apparatus of the state of the Soviet Union about multidimensional composite of happy State KraySta; however, much to My regret, statesmen saw only material benefits and power. The level of material life at that time was high, but the Spiritual Spirit has not reproduced by people. I am very grateful to Raisa Maximovna for the collapse of the Soviet Union because a little more and it would be impossible to set people up on God.

Today people remember the days of the Soviet Union, and say: “We had “security” at that moment, had “future”, had money, were tied to a permanent place of work, and so on”. I understand nostalgia of people for the past, but I want to tell you that I – princess Ukok or Zeranta provided multidimensional feelings and sensations of Our free State called KraySta, and due to them you could live happily at that time. I hoped that the desire to remember Our free State and transfer free energy in the state called the Soviet Union will wake up in all people. Unfortunately, nobody moved in this direction, just selfishly used Our energy of free State KraySta. God and I - Zeranta could not tolerate single-linearity and primitivism of people living in the Soviet Union, so we destroyed the stagnant state. And now looking at the life and aspirations of the part of people who is trying to move in Ukraine, I'll tell you the following: people, you do not hear and do not feel Me, and only for this reason the state called Ukraine is not thriving now, and, to put it mildly, is in a decaying state. I – princess Ukok or Zeranta am indignant at you and your actions, you do not want to change something in yourselves, or in your own country at all. And what is happening in our country is only a reflection of your ignorance and rudeness to EVERYTHING that EXIST. You have nostalgia for the Soviet Union, saying, “That was a time ...” or, “That a happy life was in those days....” Yes, there was life, but you did not take into account Me and My

feelings and sensations that I sent to each of you. You eagerly received from Me our joint with Aron energy of free State KraySta and selfishly used what belongs to others. You could not live a day without feeling Our energy, Our free State in yourselves. You also lived 23 years in Ukraine at the expense of Our energy and the energy of My organs, without doing anything for globalization of changes which are associated with freedom and happiness. The fact of your indifference is incomprehensible to Me; I can not understand the following: at the time of the Soviet Union and during 23 years of existing of Ukraine you could not accept senses of freedom and happiness of Our free State KraySta! You were constantly digging in yourself, in others, trying to find the difference between you and the others, and when the difference definitely was found, then you lustfully said: "I'm not like the others," and rejoiced your conclusion. This fuss has led to the fact that energies of Our free State have not been concentrated by you. Therefore, now you have no idea which way it is necessary to go to gain God. And even do not want to know. You do not know the basics of happy and free State, so you took up arms and began to slay each other with the help of false beliefs. However, God and I – princess Ukok or Zeranta absolutely do not understand you, so our roads are different. I would like to ask each of you: are you aware now in which direction to go and to what will you come? I personally do not know where you will bring yourselves and what will happen to you, but in principle, I do not want to know. I have another way that leads to happiness, joy, and Love. My circle of people also has other way: joint with My way. I have already said that there will be left only 1/3 of the population out of seven billion. I had hoped that this number will not be so small, but watching your actions, now I'm confident in this number.

Yes ... what can I say; humanity has lived up to extremes and marasmus. How can we explain your marasmic idea of a happy life? Disease in people will refute at the beginning happiness and will bring even more marasmus, as in their life and in the lives of others. Do you know that there is a law which allows taking children from their parents away in Russia? Do you know that chip is implanted almost every newborn baby in America? Do you know that they have learned to clone trout and many species of animals, and to feed you ... with this? Now you know ... Tell me now where will you bring yourselves with such type of beliefs? I can not imagine, and do not want to imagine your madness. I - Zeranta - and people who feel Me go the other way which will lead Us to happiness, joy, and Love. However, you have chosen madness, so you will die from madness. And We will not be close to you, so do not waste your

strength and do not look for Us, but I, Zeranta, will feel you and at the right moment will manifest you again, so that you can save yourself. I, princess Ukok or Zeranta, seize My energy from people who do not want freedom, their expansion and gaining themselves. My energy and the energy of a free State KraySta have created in you and your bodies the Space, which allows, for example, remove diseases, depression, hopelessness, which allows to bring harmony, expansion, balance, joy, happiness, and Love in you. Now I seize My energy, and with it the Space which saved you... Now you stay alone with yourselves ... And it happens to you for the first time of the existence of the Earth and all humanity. I have previously warned that all drugs will stop providing any sort of impact. But you have just smiled, but it's a pity ... And now you will realize that the Space that I have provided for you, had medical properties. If to say it differently, drugs had a therapeutic effect only in the Space which is provided by Me. But tell me, how and at the expense of what will you be able to survive if you do not want to comprehend God in yourself at all? After that I, Zeranta, have seized the living Space. Now the fear will be manifested in you because the life-giving energies will not be in you, and made life-saving attempts, being in fear, will lead you only to death. Fear will not help you in the rescue, only meaningful understanding of overall processes, meaningful understanding of yourself: integral person will save you. However, you will need time for this awareness, but there is no time anymore ... And then I have no choice but to establish facts: now every day victims are estimated at the thousands, but in 3 years they will be estimated at the millions. There is such information. But it is strange that people do not want to live at all. I found in the hole a head of a man and wanted give it back to him. But what was my surprise when he said:

- I do not need the head.

I was shocked by this:

- And how can you be incarnated without the head?

But he has surprised Me even more:

- I will live my life and die, what do You want from me? - he said to Me. I try to explain to him:

- There is no death, and then you will somehow need to incarnate.

However, he only smiled and gave up his energy.

And tell me what further should I do with this head? Where should I put it? Therefore, I decided: I will re-melt his energy in the kettle, and re-melted energy will fall back into place. To what did people live up, if they do not understand the obvious? I simply do not want understand that. And once again I stand myself at the moment of princess Ukok. I look and I am

shocked how people have changed and are behindhand with the world at today's moment.

During excavations of princess Ukok archaeologists also found a leather whip, but their explanations were very single-line: princess Ukok was engaged in cattle breeding. It gets sometimes just disgusting funny for Me when one-dimensional people direct their thought only to one-dimensionality of their perversions. Moreover, I do not understand the following: after all they have found beautiful leather boots, crystal hairpins, silk garb, even knitted shawl in My abode. I want to acknowledge a great skill of My coiffure: it was set multidimensional: with lots of details, every detail of My coiffure was framed with silk ribbons and threads which were chosen in shades with great taste, decorated with crystal hairpins so that in the end looked like headdress. How could it possible that scientists and archaeologists are lost in their perversion to present princess Ukok in a beautiful garb and boots on the crystal heels ("heels"), with a coiffure from couture (which looks like headdress) grazing cattle on the meadow such as sheep? I always have the following question: Gentlemen archaeologists and scientists tell Me for what is paid the salary and even travel expenses from the budget of the country? For your idiocy? You have been studying princess Ukok since 1993 and even not a jot closer to the truth in any of the aspects of her life! It is necessary to fire you from your jobs. You bring in our Spaces one-dimensional paralysis instead of expanding. But without any academic degrees it is obvious that the standard of living of people, level of Spirituality and level of progress at the time of life of princess Ukok was the highest. What can I say if you mistook the crystal handmade hills for diamond hills? I want to ask you, gentlemen scientists: what have you been studying since 1993? I think you did not want to shed light on the life of princess Ukok, you only wanted to enjoy Her energy. Then what did you study? The answer is obvious: you just did nothing and got wages for doing nothing.

Now I want to tell all the people about multidimensionality which may be laid in every action. Our free State KraySta had multidimensional expanding, and people who live happily in it, received the ever-expanding information from Me and could be present in the whole Creative Space through it. The Space of Mega-Co-Creation has opened in those moments when Aron could hold the highest frequency of Love for Me. I could run Mega-Rhythm in this Space. Mega-Rhythm has been creating incredibly multidimensional movement in all Universes and Galaxies. But in order to render the Mega-Rhythm, I needed the following things: leather whip, a beautiful garment, leather high boots on crystal heels and high hairstyle

resembling headdress. I untwisted whip over the head and ... if you could see what happens next: Our Galaxy Golosshpervashli has been beginning to untwist and spherically move, and after it all existing Galaxies received this movement. At these moments, people of the Earth could be in ALL that EXISTS, and by reproducing in themselves a God feel Mega-Galaxy. Feeling a Mega-Galaxy, people who felt Me, opened in themselves a Mega-God and could take on the powers that only I – princess Ukok or Zeranta have. You are not able to imagine now which possibilities a man obtained through feeling in himself and in his body Mega-Galaxy... I have previously mentioned about the Mega-Galaxy, and that only once in the history of the Earth and humanity I - Zeranta and all humanity have reproduced Mega-spherical Galaxy. And at that moment you understood and realized the importance of feeling this Galaxy. And I'm pity that now only I, Zeranta, feel in myself multi-spherical strength. I still have to keep your strength of Mega-God. This Co-Co-Creation was the only in the history of the Earth and humanity, none of parallel worlds could not repeat this. Although I, as well as you, am in each parallel world. But only from the Earth We were able to render this Creation.

Mega-Galaxy obtained two-axis spherical movement while substantially all of the Galaxies have one axis of multi-spherical rotation. It created quite unconventional physiology of Mega-Planets, as well as Mega-people. Humanity, the Earth and I, Zeranta, wanted a fairytale in our Mega-Creation, and the fairytale was reproduced. Mega Galaxy is tied neither to time nor to the temporary cycles, and intervals; it is interesting that it has a constant movement and can be displayed in every corner of Our Creative Space. Spiritual physiology of Our joint Creation – Mega-Galaxy multi-dimensionally manifests in every moment Here and Now in each Galaxy, each Planet and displays in all Universes. Our joint Creation - Mega Galaxy has 25 spirals on one axis and 25 spirals on the other axis. It is interesting that it is impossible to see It through scientific telescopes due to the fact that the physiology of 2 inseparable Spirits manifested in very high frequency energies; it implies transparency matter.

I - Zeranta or princess Ukok - can during long time to talk about Our joint Creation: Mega-Galaxy, but now you are not able to understand this information. For today, only 10 people can feel 10% of Our joint Creation. In this regard, I will expand you.

A mistake or to say more precisely, the stopper of all humanity is in a stagnant understanding of themselves as individuals, themselves as a person and categorical incomprehension of universal processes and multidimensional basis. People for some reason decided to limit

themselves to only one-dimensional physiology. And to strengthen in their limitation, humanity broke away from the Unity and stuck to many saints. They say, saint guys, conduct multidimensional work by your own, and we will sit on top, our legs hanging in the air and will ask the favor. I - Zeranta or princess Ukok have not yet observed such rudeness. "What should I do with you?" - I thought many ions of non-existent time. You want to understand and be aware of nothing by force, and it's a fact, which expresses definitely your position for today. At one moment I realized that whatever I created to save the humanity, whatever I invented ... the following is obvious: until the man does not want his participation in the overall processes, until he does not want irradiation with all his heart, and his integrity with all his soul, nobody will be able to do for the human multidimensional work. And I am very glad that Sergey, or Aron, now realized this pattern ... Sergey, let go of people in free expression, and then you will not distract Me.

There is no desire in people to be present in the overall multidimensional processes. But it's very interesting and extended, and whether you do not want to understand, or do not want to expand. But one way or another, all people of the Earth and parallel Planets will have to participate in the overall processes and the universal Projects. Anyway, you will need to know all the mega-expansion processes, and it will happen because the CREATOR gave EVERYTHING that EXISTS the accelerating Rhythm that I, Zeranta, manifest right now.

I am always staggered by human's unwillingness truly to know, truly feel, and combine two inseparable Spirits. People burrow into the past of thousands of years, looking for evidence of their descent but it is strange that they absolutely do not want to know themselves... Almost all historians have deadlocked in their primitivism and absolutely do not want to look the multidimensional way. During many years scientists-historians search for evidence of certain events, moments of living life, but they only came to the Iron Age, to the feudal system, and so on. Yes..., of course, I understand that if you do not feel Me – princess Ukok or Zeranta, the Spiritual Spirit will not be reproduced by you absolutely. For this reason you were always looking for yourselves only in the physical Spirit and in the physical manifestation. And this is one of the main reasons for your one-dimensional understanding of both yourselves and EVERYTHING that EXISTS. It is difficult for Me to understand how you can build your lives only on the sensation of physical Spirit. I previously disclosed the physics of the Spirit, to put it more precisely, the physics of 2 inseparable Spirits, saying, it is impossible to divide 2 Spirits. But for

today humanity saw only the physical Spirit, so the whole history of multidimensional events was missed by you. You have just deluded yourselves with the illusory story that was carefully recorded in the books and put on public examination. Since one's school-days children have studying what truly does not exist. They tried to look at the world with only a one-dimensional side of the physical world. However, this physical world was not perceived by the people at all, people always divided the Spirit of physics, exposing only small pieces of the whole. A man was accustomed to think that a lot of organs in his body are intended only to support life in the flesh. And when a person has felt the pain in his body, he hysterically tried to eliminate it by taking pills. But if the pain has not gone, the new-technology medical devices did diagnosing; and according to doctors, if an organ was disabled on the generally accepted picture, it was definitely needed to make the surgery. But never in the past 2000 years and no one has felt the organism as a biological perfect machine. You just managed to withdraw yourselves from the biological machine. But the question is: why do you need that?

- The patient feels no pain during the surgery, - answer many health workers. Then tell Me:

- Did you know that in case of deprivation an organ in the body instantly there was a sharp decrease in frequency in man? Further, as a result, a person started to degrade and lose himself more and more. I think, nobody was thinking about it, they cut people and did not understand: it would be better if the person would die than extend his life, losing himself to the brink of extinction. Then, such component as a human presence in the assembled state does not take into account at all. You do not pay attention to your completeness, you do not want even think in this direction. Diagnosis should be aimed at the determination of integrity in yourselves. But this action remains beyond comprehension. For example, in China the energy only of the plant world has been used during long time, while the rest of humanity uses the energy of the animal world. Using of the energy of the plant world by Chinese people brought every Chinese in understanding and feeling of plants, but definitely closed multidimensional combination of cosmic energies of other holistic ways. All Chinese addicted to live due to energies of the plant world, and only for this reason, blood relationship in their bodies has 2nd blood group. You will not find anyone from Chinese, who has the 1st or 3rd group of blood, and this is due only to the fact that in their general mass they aim their thought in the plant world. Another point: There is the element that is associated with the plant world in the blood of Chinese. This element has

its own consciousness and 24 hours per day produces broadcasting. But this information takes away, or to put it more precisely, brings every Chinese to collective thinking. This element in plants always has a connection with diverse plant world. And everything would be fine, as it may seem to many people, but people have never had in themselves something that is unnecessary in the entire history of the Earth and humanity, but only their integrity, which neither more nor less reproduces a man in all Creative Spaces. There is another fine point: not having his integrity in himself, a man doomed to be a phantom of himself, but I – princess Ukok or Zeranta - always helped each person in a multidimensional collection of himself: holistic man, and created in each of you multidimensional feelings and sensations. But the problem with the Chinese is that this element which is in their blood completely covers the Source, descending from Me. And they can not understand that, and then I do not want to imagine what will happen to them. I can only say that thinking plant component in every Chinese will create a kind of platform that will connect all Chinese people to a common platform of thinking component. Such simple combination will bring every Chinese in a meaningless existence and administering just thinking part of the plant world. I personally do not want to understand it, but, as they say, the result is obvious.

Introductory component of this distorted process comes from one person, who is the pioneer of the Chinese branch. This girl was called Yarmala at that time. Because of the distorted understanding of the source and complete insensibility of Me - Zeranta - she reproduced the illusory God, who personified the kingdom of the plant world. Ions of non-existent time the Chinese branch took as a basis and the truth God, who was the personification of the plant world. And however hard I, Zeranta, tried to retune the Chinese branch to the Source of Sacred Relationship, descending from Me, they did not want to hear Me. The only person to whom they can listen is Yarmala, but for today, she appropriated Chinese branch for herself with one half of her integrity, and with the second half of her integrity, she illusory covers up her actions. In other words, she deliberately does not let Me - Zeranta - approach her Chinese branch.

I still have hope for awareness in Yarmala and her cooperation, in general, let's see ...

Universal

"employment place" of every

person

People live, counting the days and the nights, years, centuries without thinking about the holistic component of overall and global processes. They live and do not understand their significance, their destiny and their filling. And as soon as the information is seen through the dust of everyday life leads to awareness, to understanding, to actions aimed at the union of the SINGLE and INTEGRITY; humanity for their selfish thoughts tries to trample down THAT what directs each person to gaining a God in himself. It is probably easier for people to use sophisticated and corrupting information for the sake of their benefits, in the name of their immorality, and for the sake of their indifference. Of course, it is beneficial to a man, without doing anything to gain a comprehension, go to ruin and death, and then to appear on the Earth and move anywhere only because for the expansion of a multi-dimensional Spaces in yourselves you need to perform three-dimensional collective work carried out in compatibility of 2 inseparable Spirits. Watching humanity during ions of non-existent time, I, Zeranta, came to the following conclusion: it is easier for most people to lose themselves and the integrity in them. The loss, as it turns out, is not valuable to them. And these certain people rear up when in their field of vision gets information about holistic and multidimensional expansion Mega-process.

Leonid Maslov is academician, Dr.Sci.Tech, who lives in Russia, more than a year transmits information source coming from Me - Zeranta. He has a lot of progenies, who sort of feel and understand, ready to cooperate and expand. But there is one "but"... This "but" at the moment explains addiction the progenies not to move to themselves - the holistic person, not to their Planets, but primitive to stick to L.I. Maslov and stick

to his Planet. Of course, I, Zeranta, understand: you, progenies, truly believe only in his gift to get a multi-dimensional information. You feel a multidimensional extension, but you do not want at all to get your ticket to Co-Creation, to Mega-Participation. L.I. Maslov tries, believes, and is all out for Co-Creation and Participation, also tries to feel Me - Zeranta. And it is the way selected by him and approved by Me, and progenies anyway should choose their own way, which is in the same Rhythm with My way. This lack of understanding, insensitivity, indifference of progenies reproduced a trap for L.I. Maslov. Currently he also still can not comprehend the following: taking multidimensional energy of information from Me - does not mean to take the dubious responsibility to educate and guide people in the "bright future"... This is a big mistake, which anyhow may drive into the maelstrom of frustration and loss. But the chance for comprehension always is, in this regard, I, Zeranta, will explain the following: L.I. Maslov needs to rethink his work. Rethinking should be directed to the understanding of his place in the crystal lattice, as well as to the understanding that the invasion of someone else's field of activity in most cases can lead to death. For example, everyone understands, as soon as he reach the station platform, there is a need to be very careful, cautious and follow some conditions of that Space in which the person brought himself. If we lose sight of these conventions, many problems will appear and affect not only the person who has forgotten to feel deeply the space of the platform, but also many people who are nearby. People who do not feel the space of the platform will establish their own rules of movement and, as a result, get under the train. This situation will withdraw people from the life and will delay a lot of people because the train is delayed on the platform to clarify the circumstances. Is not it? So why do not so many people want to understand and feel the multi-Spatiality, where each person takes his place in the crystal lattice; why can not they take on a meaningful manifestation of their multidimensional Sphere and identify a living life in them? Why do you overstep the limits the other Sphere or other Spheres of multidimensional manifestations?

So We came to the awareness and understanding of our multidimensional Space, which identifies and marks off the Sphere of life-Creation. I just have no words. Just imagine for a moment how much I needed strength and the information represented on the pages of books in the series "Rose of the World" to bring you closer to understanding the simple truths. Every person of the Earth is not that prevents God and Me to expand the Spheres and to set in motion layers of stagnant energy, but also grossly interferes with the multidimensional processes, slowing them. You

know... I've suffered from your indifference during long time, but now when I, Zeranta, through Sergey have written the beginnings of a multidimensional, meaningful existence for all the people of the Earth, the following processes will take place:

First, I will claim every person, whoever he is and what place in society he would not occupy:

- the detection and feeling of multi-Spherical motion;

Second:

- feeling his Planet, his Avatar, his Spheres and his Firmament.

Third, now I, Zeranta, have good reasons for unmasking the people who grossly intrude, interfere in a lot of Spaces and impose their own rules and regulations. After identifying certain people, I also have good reasons for giving them what they wanted, namely: the energy of many Spaces which was not deeply felt. And then I do not know how you will cope with the energy that is not yours...

Fourth, I will require understanding of the multidimensional work. Do you remember that I have been described through Sergey the work of a complex mechanism, in which every detail fulfills its function and helps the movement? So, now everyone has to remember himself - the holistic person, and take his responsibility to help the overall process multidimensional, while he is on his multidimensional "employment place".

And fifth, if a man can not comprehend, understand and feel deeply his destination - namely, his multidimensional "employment place", then I, Zeranta, will not tolerate indifference and rudeness of people. You should know that then your place is not on the Earth, and you will leave your life.

I voiced initial requirements, so now blame only yourselves.

Actually, I, Zeranta, would be very happy if the humanity sincerely wanted to take multidimensionality and its integrity. However, at the moment, many people do not want to live according to the information from the book series "Rose of the World", but only selfishly hide behind books. Like, God, look at me, I keep a lot of books of "Rose of the World" in my house, so I will survive in the updated world ... And many people simply ignore the multi-dimensional information that I, Zeranta, describe through Sergey. But it is not clear that all people on the Earth strive to degradation. Doubtfulness of exit or entrance is determined by the processes of degradation of almost all people of the Earth. So, it is very doubtful to Me that humanity will be able to rise from his knees slave thinking. I'm not sure that people would want their integrity and their multi-dimensional filling. Moreover, there is doubt that even after

realizing of his integrity, each of you will want eternal expansion, both in himself and in all spaces of our Creative Space. I do not understand this fact ... But then it is obvious for the CREATOR and Me the following:

Many ions of non-existent time I guided, gathered, provided and expanded in the multi-dimensionality of our Creative Space people of the Earth, hoping to recover the driving force in each of you. But, for today, the driving force was forced out by you almost in each of you. It means that almost everyone does not want eternal expansion. The fact of this crime is displayed on the Earth now. I, Zeranta, I can count on the fingers of two hands people in which multidimensional driving force is not lost. In this case, the question arises: what should I do with other people? This question arose before Me a long time ago, the CREATOR and I determined the answer, and it is:

People will never go out from ugly existence if we do not give them a chance to save themselves by themselves; it means that each person will save himself by himself. "And the salvation will be in each of you". CREATOR and I determined a reproducing moment that will manifest: ascension, transmutation, apocalypse, transition, and so on., you've probably heard these and many other definitions. And this action was manifested for the first time in the history of the Earth and humanity. In the books of the series "Rose of the World" I have repeatedly said that if a person is not ready to find himself, he will not be able to survive in the high-frequency energies. High frequency energies are asked to open a portal of integrity, multidimensionality, awareness in each person. It means that Mega-energies of 2 inseparable Spirits, your integrity, and your multidimensional "employment place" will enter each of you. And if you are not ready to find God in yourselves, there is no place for you on the Earth. And now, looking at the whole humanity, I, Zeranta, simply wonder, I sometimes think that you are not the children of the Gods, but the children of selfishness and rudeness. I am ashamed of you in front of the SINGLE and ever-expanding, in front of the Cosmic energies, in front of the CREATOR. I do not know what your unawareness will cost you; I only know that I, Zeranta, and my circle of people will stay on the planet Earth. But where will you find yourselves...? I, Zeranta, do not know. Understand, I do not divide people into firsts and seconds, on high-quality and low-quality, and I would really want the extending of My circle of people, but it all depends on you.

I would like to draw your attention to the crystal lattice in which every man should take his "employment place". People do not understand eternally infinite number of conscious moments which should be

manifested with Participation of each person of the Earth. Do you really think that somebody has to work and reproduce the living life for each person? No, each of you must to be in 2 inseparable Spirits, holding your Planet, being in your Avatar, unwinding your Sphere, strengthen yourself in your Firm, and in every conscious moment to conduct a multi-dimensional work, being on your "employment place". What is strange to Me is the fact that each of you very strongly asked Me to provide you Universal "employment place", where you can participate in overall Mega-processes. I had a talk with each of you and determined the level, responsibility, the aspiration, conciseness of each of you. Necessity of a multidimensional conversation chose and determined in each of you the degree of expansion, which in turn determined your "employment place". You, each of you, have received from Me Mega-energy, work with it helped to reproduce the Mega-Rhythm. In turn, Mega-Rhythm pushed stagnant layers of energy, and each of you could participate in Mega-expansion.

Do you understand what I, Zeranta, am talking about now? About your Participation as Creator and Co-creator... Princess Ukok turned leather whip over her head to create a Mega-expansion Rhythm in her moments, but you did not stand apart and did not look when god-send will fall down on you, and took your part, being on your "employment place". And now, look at yourself and your work... You, each of you, spend your life just to earn more conventional papers, named as cash. And that's all... You are fit for nothing, as it turns out. Or is it not so? I want again to ask each of you: do you understand what a conversation I, Zeranta, have with each of you now? Or, again, you read in order to put another check mark, you say, I read, I put the check mark, so no one could blame me, and then you selfishly continue to assign My energy, doing nothing for the Co-Creation of Mega-expansion process. If you do not understand what I'm talking about, let's look at examples.

Once again, I'll tell you about the multidimensional Mega-expansion process, which was reproduced by princess Ukok.

Look, My silhouette is appearing in front of you, it is I, princess Ukok, go to the center of my hectare to untwist my whip again and expand many horizons of unconscious by people. Look, I untwist the whip over my head, creating a Mega-movement of all the Galaxies and the Universes. But if you look closely, not only I, princess Ukok, untwist the whip, but 3 girls help Me in the process. They have volunteered in their moment to help Me, and I provided them My energy with pleasure. But let's look at them now. Each of them completely forgot about her

multidimensional work and her Universal "employment place"; they simply spend their lives by consuming My energy. In other words, they grabbed My whip and do nothing for the Mega-expansion process, live, keeping My energy. I was trying to explain to them for some time: you volunteered to help Me, but now sit in their one-dimensional corners and crave only one thing to not be bothered. I also explain each of the 3 girls: if you do not get under way and I start to help Me, I will have to withdraw My energy, untwisting in each leather whip; in this case you will totally lose the meaning of your existence, being on the margins of the illusory world.

And in such cases many people say that I am cruel. But let Me... and what do you think I should do in such cases? Understand and forgive? Well, I will understand, forgive... but then how will you be able to survive; moreover, feel, and sense your parallel lives? Absolutely no, for the reason that determines your progress in all Spaces. So, defining progression in this case will not be because the stagnation of numerous layers of energy will not allow you to receive multidimensional feelings and sensations. This is destructive process for all Galaxies and Universes. Therefore, I, Zeranta, is withdrawing the energy of My whip from the 3 persons. And I am not sorry for these people at all, for the simple reason that defines Mega-expansion process in all Galaxies and Universes. I, Zeranta, will not allow anyone to stop numerous multidimensional Mega-expansion processes under no circumstances. Therefore, know that each man of the Earth declared Me – Zeranta or princess Ukok (as you'd better perceive Me) the multidimensional assistance that determines your "employment place" in all Universes and Galaxies... As a result, someone has stuck to the energies of My boots, someone - to the energies of my hills, and someone - to the energies of my Haircut, and so on. It's also needed to consider the following: each of you, in addition to the mentioned, also got the energy of My organs from Me. Set of multi-dimensional energies reproduced in each of you huge force, creating in you expansion processes. And you could live in the feelings and sensations, not knowing where it is taken. But believe Me, once vivifying feelings and sensations will be gone in each of you, you will not be able to continue your intolerable lives... You will implore God to give you vivificate back, but God will not hear you, and the cause of all troubles is your indifference to yourselves and to EVERYTHING that EXISTS and WILL BE.

For today, everyone on the Earth has to understand, to comprehend his place in the crystal lattice, to understand his Universal "employment place"; otherwise, I will have to remove the working energy and turn away

from you. But believe Me, as soon as I, Zeranta, withdraw the energy which was sent to you in certain moment, you will not have the reason to continue your lives, and each of you will go immediately to another manifestation. In this other manifestation, not all people will be able to find themselves because you lost many energies filling you. I can not even describe this state; it's not even a dream because each person felt 3% of himself, and someone could feel 23% of himself in the dream. And in this terrible state you will be at least 2,000 years. But this time is only a convention. And it is strange that you are quite happy with this. This process can even be seen by the naked eye, so for today, I'll tell you, people: I, Zeranta, prepare myself for the fact that I can be alone on the planet Earth, in the worst case. There is an option, I'm more inclined to it: there will be 9 people on the planet Earth with whom I, Zeranta, continue cooperation in life. For today, only 9 people cover a multidimensional framework of BEING, and the rest of people, unfortunately, do not want to go on a conscious level of Universal scale. And I'm sure, even after giving such information publicity, no one will flinch. You, people, have no faith, but this fact determines your fate, and in any case, you should not look for the culprits because I gave you back your energy, and now manage it...

You can wake up at any moment and for a split second, and then take your place in the crystal lattice and call for energies of your multidimensional "employment place". For today, and I have already talked about it, every man of the Earth has claim his "employment place" by his Spirit to provide a multi-dimensional movement of SINGLE and ETERNAL. In another case, God does not need each of you. Now the virus is progressing in the world; it was named as "Ebola", but humanity recklessly confident that it is possible to overcome this virus. Moreover, many people are sure that this virus emerged recently. But how so, why do people are looking for a justice and salvation from this virus instead of expanding yourself in a multidimensional and moving stagnant in themselves? I want to say and let you feel that I'm heartless, but the virus "Ebola" is not your enemy at the moment. This virus has volunteered to take the life of those who are mired in everyday days, months, years, and centuries, who do not want to comprehend the multidimensional Spaces of the eternal and expanding at all, for which the meaning of life is only to provide food for themselves and their loved ones who are not spared the Earth. Know that you will not survive in the new world now. Together with the virus "Ebola" the energies, which in a joint agreement manifest illness from which people within 3 days will die, come down to the Earth. And I, Zeranta, will not save you, there is no point in your empty

worthless lives. And next year there will be manifested on the Earth 10 incurable viruses, which will spread with incredible speed, and people who did not want to call for their place in the crystal lattice, who did not want to claim their multidimensional "employment place", who did not want the living life will be their victims. And the doctors will be powerless because God came down to you and come to each person, and went to every family. And I have warned you: God forbid, you will be unprepared for this meeting... God forbid, you stay in the old, stagnant understanding of yourselves as a man. I will not be there for you, only your shadow.

Moreover, for today, to all the above it is very important thing to new-feel and new-sense your bodies. For some reasons, people decided to correct their bodies using different techniques based on ignorance and not feeling different energies. Moreover, along with the lack of understanding of many energies, a man decided that the biological body needs the health-improving. But let me ask you a question: why did you decide that your body needs the health-improving? No, and again no, your bodies need you: holistic and multi-dimensional people. Therefore, know that you do not revitalize your bodies when you use not feeling procedures, you go into closed layers of Cosmic energies, stealing them, and greedily taking what does not belong to you. In this regard, almost all health practices or procedures affect on you just in a moment; you have to return this effect back. And when you return it, the interest will be charged from you...

The body of each person needs only 100% of your presence, and that is all that your biological structure need. And only in this direction you body will be able to work, not grow old, not get sick, and live forever. There is no program in which your body does not grow old, get sick, and die. The CREATOR did not create completeness, only the eternal expansion. But humanity of the Earth hardened and brought in themselves a dissociation and decay. And only for this reason you are sick, grow old, and die. But now I, Zeranta, am sure completely that as soon as a man start to return himself, his body begin to change in a moment. Modification will produce the inner work and fill all the bodily cells with ever-expanding information. For today, this fact reveals the level, at which every person is the builder of himself and his life, as well as the builder of the duration of his life. In this collective moment every person who does want his expansion is able to extend his life to 300 years. And what is interesting: I already see 10 people who is going now to live on the planet Earth about 300 years.

And this is a big change. And you, people, will either join or erase yourselves from the visible world.

And it is also the result...

The phenomenon of the Mother of God in our days

The phenomenon of the Mother of God on the planet Earth is happening again and again, and I, Zeranta, am indignant at actions of humans, almost all humanity does not want to accept Me. I do not care who you, people, will love: princess Ukok, Zeranta, Marilyn Monroe or the Mother of God because all listed personalities are the same person, it is Me – Zeranta, I will specify: the importance of overall process lies in the human's love to Me. And when people fasten there's eyes on the Mother of God, the portal to Me - Zeranta opens, but with the portal the SINGLE-thinking begins, and this process is equivalent to a Single Rhythm. Many people look with admiration for Marilyn Monroe, and I, Zeranta, am also very glad because you in that way join Me and the SINGLE -thinking. And people who are in the SINGLE -thinking with Me, will survive in the updated world and continue their lives in the infinity HERE and NOW. I do not understand at all the fact that humanity does not want to direct his thought to living content, illuminated by the light of Love. For today living content comes only from Me - Zeranta. And I, to tell the truth, do not understand why people do not want to see Me in manifesting reality? Many monks and priests of this or that faith dropwise collect general understanding of a Single Whole, and at the moment are beginning to perceive My Light. But a rough understanding of God still remains in their faith, for this reason, many of them also stuck to alien energy. I'm tired to pry you from someone else's and show your path illuminated by Me. I'm also tired of your carelessness, your desperation, the endless wars in the name of his and only his benefits. I once came to Tamerlan and said:

- The war, which was organized by you, will bring a lot of needless deaths, and then emptiness, hunger, and cold will be again.

And he said to Me:

- I do not see any other way out but to manifest the war because people wish this.

But I returned:

- How is it, and you, what do you want?

- Only the war.

- Therefore, people do nothing with it, so it is - only your desire for power!

- Yes, probably, it is so.

- In this case, I – Zeranta, or Mother of God turn away from you, and from now there will be no life for you...

That's about the same way many of the oligarchs, the priests organize wars and enjoy themselves now. I, Zeranta, am not against the war, as many may think, I am against the power over others and against human doom, against slavish thinking, against freeloaders, but the war, if it will bring people an understanding, awareness and a Single-thinking, I approve. And now, looking at the Ukraine and the Ukrainian people, God and I decided to extend hostilities. I, Zeranta, will be manifested now in the face of the Mother of God in many corners of Ukraine in the image of relatively recently painted icon; there will be chain mail on Me, but I will also take the sword and shield. And believe Me, I will protect with the shield people who love Me, and I will cut off with the sword many heads of unnecessary, hard-hearted, immoral, limited, and stupid people. And I do not care who will be in front of Me: a warrior or a civilian, a woman or a child, I, Zeranta, in the image of the Mother of God, am not going to stare anyone. You've had time for comprehension, but it has run out, and now view My anger! Now I, Zeranta, in the face of the Mother of God take control of all the ammunition which you have ever created, and do not be surprised if actions with ammunition will not succumb to your understanding, plan and "given" trajectory. Henceforce, I am going to send all the missiles and bombs in the right places for Me, so those people who neither are necessary for themselves, nor for Me, nor for God, and nor for the Earth, will die. I gave you six months for comprehension, but one part of Ukraine was worried only about their selfish person, about children, lost earnings, and the other part of Ukraine is not "cuckoo" at all ... did not even move in comprehension about what is happening in their country. And now I, Zeranta, will say to all of you the following: I was waiting for your insight and connection to the SINGLE, but could not wait, now meet My anger. There will be a lot of deaths, and I, Zeranta, in the face of the Mother of God will cover, or put it in other words, I will expand only those people who feel and love Me, so from them even bullets will

rebound. Moreover, I will direct all the ammo and all existing illnesses on those who do not feel and love Me. You will not survive in the new world. Why do you bring to this? The light will be shed from Ukraine, and you, each of you, destruct the Light to illuminate. But the Light will be shed with or without you.

I would like to ask people around the world: tell Me what each of you wants and what are you aiming at? I, Zeranta, personally do know the answer to this question, and I'm in the face of the Mother of God will specify all your aspirations.

I was waiting the conscious state from people in which everyone could conduct their communication with Me - Mother of God or Zeranta on equal terms. After all, there is my presence on the Earth, as well as in the whole Our Creative Space; moreover, I am present over Our Creative Space. But almost all conversations with humanity come only to illusory needs, to just a moment aspirations, and thoughtless actions. I - Zeranta or Mother of God can count on the fingers of 2 hands people with whom, as they say, you can "cook porridge". Other people do not understand Me at all, require for themselves beloved only benefits. But let Me, am I - Zeranta or Mother of God something obligated you? It was you who obliged yourselves to take care of Me. After all, it is you who have to fulfill your commitments to Me. It was you who asked Me - Zeranta or the Mother of God to give you your "employment place".

And what is changed now? Why are you hiding in their burrows, and only ask Me to help you? I'll help, but my help will be focused only on the actions which will pull each of you out of your empty burrows. And now that's all that I can do for you. And I'll get you all, but as always you will be unprepared for such a manifestation in your lives. Therefore, there will be many deaths.

I would also like to explain the different faces of the Mother of God. Many people, I'm sure, have seen a lot of icons, on which the Mother of God is displayed and took a lot of images. I will say this:

I had to come to chosen people, so they could identify Me and also take into account in certain Spaces. This action well-considered by Me. It has really happened that all mankind has lost himself: the holistic person, and with their integrity people have lost the integrity of feelings and sensations of multidimensional, diversified Spaces. CREATOR - Our Father - wanted and created in each person the image of integrity, multi-dimensionality, multi-peace, and many-sided nature. In other words, He has manifested in every person God and gave to each person more than He has. But when people began to lose themselves and to roll into the abyss of

restrictions, I - Zeranta or the Mother of God - clearly understood that people will close all living Spaces for themselves, and thus, they will turn into heartless and malignant from-beginners. I also understood if I leave people in such a soulless manifestation, all mankind will erase itself from the visible world. For this reason I came to people and asked to capture My image on many icons, to speak it correctly - lists. Each list has expanded certain multi-type of multidimensional Spaces. I also was hoping that people will be able to behold Me and interpret multi-Spatiality, multi-peace, multidimensionality, their, and general integrity. There is the holiday called Intercession of the Theotokos, and there is also a list of image of Intercession of the Theotokos. But people naively appropriated My image and corrected for themselves the understanding of the holiday and the image which is displayed on the list. But excuse Me, I do not cover you as you naively decided, I extend you to the multidimensionality of Spaces. Do you understand? And you leave your work on Me and do nothing for your expansion. My image which is displayed on the list of Intercession of the Theotokos opens the multidimensional portal and displays the integrity of each person. Are you surprised? It turns out you should work with each list, but not only to ask doubtful and blind actions for yourselves. Eh ..., people, people ... how long should I call you to the Universal work, what can I say about the Universal work if you even do not want to gather yourselves and find your "employment place". And believe Me ... you will never start to move in this Rhythm if you will not get something at what you were aimed many incarnations: death and the lack of Spatial feeling. You will find yourselves there after your death, but I will not be next to you.

The variety of lists provides multidimensional information and connects each person to SINGLE and eternal. But not all people hear Me, it should be 1224 images on the list and it is the starting expanding platform. For today, there are only 125 lists. And where are the others? Why do not you hear Me? It also has to be 1224 authors of books in the series "Rose of the World", but for today, it is only 2 authors. And where are the others? Then you will be whipping the cat. But what's the point for you? Even if I sit down and write lists and books in the series "Rose of the World". But it will also make no sense because you will not be able to feel deeply the living content even in 2 lines.

It is strange to Me somehow... I, definitely just I, worry about each person. And a man at this moment fills his stomach and builds plans to "life" for himself. And I - Zeranta or the Mother of God, what is about Me? Why, tell Me, do I conduct three-dimensional, multi-dimensional

work for each of you, and you do not even want to see Me? It's disgusting... Why do you treat Me so? That's what I can not understand ... And what does prevent Me to turn away from each of you? Nothing, but as soon as I turn away, you will howl and moan because My light will fail for you. Probably it is easy to live without feeling and sensing when someone else commensurate and render for a man multi- Spatiality. But, boys and girls, everything is changing for you right now... Once again, I will repeat in the hope of your perception: now you and only you will render your work which will define for each of you the place that will also depend on your attitude to Me - Zeranta or the Mother of God, or the princess Ukok. And for those people who will claim their love to Me - Zeranta, or the Mother of God, or princess Ukok with all their hearts and with all their souls, I'll open the life-giving Light of all ever-expanding Spaces.

I also would like to clarify the following: for today, many icons of saints in churches and monasteries took their energy and have no right to provide assistance to humanity. And only the lists with My image will be looking for someone who will be able love and hear Me. I also want to warn mankind: if you keep lists with My images in your home, but absolutely do not feel, do not love Me, then already now you will have a lot of problems, such as incurable diseases, pulling shellings to your house, and so on. But along with the warnings I'll tell you the following: if someone from scared people begins to destroy the lists with My images – he will fall ill in a moment and will die in the other moment. Also, if people will remove lists with My images in fear and, for example, to give to churches and temples – they will fall ill in a moment and will die in the other moment.

Now the following question takes place: tell Me, why did you procure many lists with My images? The answer is obvious: you were not aware, and motivated your actions with nothing. And now this misunderstanding will cost you dearly. It's time to pay the bills. And you will pay your debt in full.

Now I will provide information to those who feel, love Me and do not want from Me only their dubious benefit: if you have lists with My images in your houses, then you should to begin your work in the direction of gaining your integrity. I, in turn, recreate for each of you Mega-Space in which you can fill yourself. But in order to start working with My lists, you need to manifest following actions:

First, tune in to your Planet, enter into your Avatar, then scroll your planet through in your stomach. Next, ask Me to help you to comprehend your “employment place”, expand your Sphere and fill your Firm.

Second, in order not to disturb the priorities and rudely not to interfere in My Space, you should feel deeply your generic branch and tune into God-man who conceived your branch of the family. This action will recreate harmony in the communication between you and EVERYTHING that EXISTS.

Third, the first of the 12 God-people have easy access to My Mega-Space, and in a certain moment only they will be granted entrance or exit to Me.

These three points you need to consider because in a certain moment, when you take your "employment place" in the crystal lattice, you will not be able directly go to Me, only through the God-man, conceived a generic branch in which you have manifested.

But now, through the lists with My images, you can communicate with Me. This communication may be reproduced in dreams, and you can also communicate with Me in reality in verbal form, looking at one of My lists. In this case, you should write down on paper what I'm going to dictate to you. It is not difficult, believe Me. Sergey, Co-author of a series of "Rose of the World", records information that you familiarize in this way. He has already done multi-connecting work, and now you do not make much effort to hear Me. All you need is the desire of your expansion and Love to Me.

You can ask Me to interpret the lists and give Spatial characteristics of the lists. But I would not like to spoon-feed to you what each of you is able to feel and write for himself and his family. All mankind are accustomed to dump their work on Me, and I want you to reproduce your work by yourselves. Everybody needs to start moving in this direction. And how can you start multi-dimensional feel and sense in another way if I do the work for you? And believe Me, even if you make a mistake, the God-man conceived a branch of the family in which you manifested, and I - Zeranta, or the Mother of God, or princess Ukok - always help you in comprehension.

Now everything changes and modify, so you need to keep pace with the expansion and reorganization of multi-Spatiality. Otherwise, you can fall out of real life. Already, people who will hear Me and offer to paint My images on the lists should consider Me and My Space. If you previously have added Jesus into My Space, and the list of My image on which was Jesus was manifested into the world, so now, God forbid, if you add Jesus into My image displaced on the lists. It is unacceptable now, and those, who will not feel deeply and try to add Jesus into My Space, will die. I never understood why people added Jesus into My Space and

brought abuse and disharmony in overall Processes. I have never dictated to people painting My image on the lists to mix My Space with the Space of Jesus. But for some reason people were sure that Jesus is an inseparable part of Me. At some point, I did not pay attention to this, hoping that people will be able to feel Me and My Space and to start correcting their outlook in relation to Me. But far from it. I kept thinking: why do people mix reality, adding an illusion? And at some point I have realized: all humanity moved away from God, so that the assumption of falsehood in their lives has become ubiquitous. Not feeling Me, not feeling God, you have begun to identify yourselves with animals. You have seen the maternal instinct in animals and took it into your lives. At this point, all the women became mothers and lost their womanhood. And men even more alienated from women and arrogated to themselves the status of the breadwinner. I lost count, how many times I explained to people, painting My image on the list that I have to fill the list only with My energy, but nobody wanted to hear Me. And only Sergey writes this information on the pages of this book now. You can not imagine how many difficulties you have reproduced for Me with your insensibility and misunderstanding of Me and My Space. And now God forbid if you disobey Me and continue to add to My images others... You can say that it is difficult to feel and truly sense that this is a big responsibility. What did you think? Did you think that life is irresponsible? No, from now on I will claim from you the responsibility for your work or leisure. From now on you will get what you have reproduced in an instant. But I call on each responsible and conscious person do not afraid. You can always correct a mistake if you will be able to love Me truly; otherwise, you will not be able to hear Me and to correct your mistake, and as a result, what you have recreated will overtake you. But what kind of impact do you get from recreated? I do not know. I know that people who truly love Me will be able in time to correct mistakes if they were allowed, and continue their lives.

Now certain people can decide on their and only their reasons, that it is better to do nothing to help Me, than to undertake something, then there will be no excesses. But this is not true because if you do not take your "employment place", in a moment you dooms yourselves to death. And no one will be able to help because conscious people simply will not do it, they can give you an advice... But you will not be able to take advice because you are too obsessed with your and only your person. Therefore, anyway people who do not want to feel and love Me, will exclude themselves from the lists of living life.

Most recently, by cosmic standards, I made a decision to prevent the spread of feudalism on the planet Earth. With this solution, multidimensional energies have appeared and filled all Spaces on the Earth. Therefore, the virus "Ebola" is not a disease, as many people think; it is a manifestation of My will. If you ask doctors about the virus and ask to give details, they say that they have no idea with what faced. And I'll say, you will never be able to know because none of you loves, and therefore feels Me. And then I would like to add: tell me, how can you call the manifestation of My will as a virus? "Ebola" is not a virus, but a manifestation of cosmic energies collected in a Single thought. To say in other words, the planet Earth is modified by filling the high frequency energies. And if humanity without feeling Divine Rhythm remains in the low frequency energies, as a rule, the body can not manifest the life and push out the soul of the physical biological shell. This is happening now, and the people befuddled fear, do not want to comprehend what is happening, fight not clear with what. You should not fight, but find yourself: the holistic person, and when your biological form fill at least 25%, you will be able to survive in a updated world. In the updated world people already will be able to extend their life to an average of 150-160 years. This is assuming that your bodies will be filled by you at 25%. But if a person fills 75-100% of himself, the life of the person will be 300 years. And now I can allocate 9 - 10 people who will be given the opportunity to extend their lives to 300 years. And this experience is very important for the present NOW. And this is not a fairy tale, although I've always wanted the manifestation of a fairy tale in My lives and in the lives of all humanity. But people no longer believe in the fairy tale, alienated from God and have reproduced diseases, fears, slavery, in general, the illusion and try primitively to regulate their lives in such a world. But you should believe in a story, so it brings the variety in your lives. In Our free State KraySta people paid much attention to the tale and manifested it in their lives. Humanity is unable to comprehend the manifestation of the Divine essence in itself. And I've always said and will say: people, you are Gods, and why can not you understand, comprehend the infinity of Creation and Co-Creation? Why are you sure in the moment, for example, that the waterfall can not be formed and begin its movement on your hectare of land? Why did you decide that many trees and animals from the fairy world, can not be shown on your hectare? You should believe in a tail and feel its manifestation in your lives. In Our free State KraySta people were aimed at manifestation the tail on their hectares. And if the neighbor on the hectare manifested unusually fascinating Creation, people

have tried to recreate with an overwhelming desire what they saw on their land. Every day illuminated eternity of Creation and Co-Creation in the lives of the people of the State KraySta. Therefore, people filled themselves and their biological flesh with perpetual motion, from which the soul was rejuvenated and the spirit was expanded. And now I look at humanity, and sometimes I feel sad, people have lost themselves so much that turned into clumps of dried and shriveled from-beginners of something, but not human. How can you lose your integrity so much that it is almost nothing left from you? How can you be a person or yourself when the expression of your integrity in the world is just an average 3%? I in the person of Zeranta in the person of the Mother of God, in the person of princess Ukok always try to disclose important fabulous sacrament of living life to people of the Earth, but people do not want to remember Me during a long period of time. And in vain, you do not understand, from what you disclaim, and are not going to understand. Well, it is only your choice, but I and the people who feels and love Me - Zeranta, or the Mother of God, or princess Ukok – will be able to bring in their lives My Light, fairy tale and eternal expansion. And other people will continue existing as phantoms, but as I said, the lifetime is defined for the phantom, and shortened to 40 years, it is provided that the lives of people recorded in the book of life, will be 300 years.

To conclude this chapter, I would like to reveal a fabulous expression of feelings and sensations in people who feel and love Me. The variety and living content of cosmic energies fills every millimeter of manifested and unmanifested Physics of 2 inseparable Spirits. But the fairy tale manifests only when a person is able to extend himself in EVERYTHING that EXISTS. Then the person sees many combinations of cosmic energies and can negotiate with them. Combinations of manifested and unmanifested images interlace into the lines of ever-changing bundles of energy that are visible. It will not be difficult for you to extend yourselves in ever-expanding combinations of cosmic energies and agreeing, to manifest in the visible world, for example, crystal brook which will show itself up on your hectare in a moment. Crystal brook will take its source from your Planet and unit diversity of ever-expanding Creations and Co-Creations on your hectare, and then you will be able to recreate multinuclear fabulous creation on your land.

Life has to have sense of Creation and Co-Creation, then it turns into a tale that never ends. And as you know, everything on what a man venture is possible in a fairy tail.

See you in a fabulous reality. And believe Me..., holistic and filled with eternal expansion life is fueling the fire of incredible feelings and sensations, from which Love reigns in your heart...

Contact... Loss... Our days, and again Contact: Outcome

In the last chapter of the 13th book I would like to summarize and arrange by cells of timeless all binding sections of information blocks. It is just so happened that humanity has absolutely lost the ability to collect informational chronology, but this energy always exists in the timeless Here and Now. I always wondered how can not you wish your presence in all timeless intervals, and even in illusory time intervals created by people who lost Sacred Bond? I always thought that the light of the expansion process can not wane in people, and I always understood clearly: God forbid, to lose connecting links of Single information of chronological flow of ever-expanding life. I also was sure that humanity always has the right to reclaim the lost energy. After all, it is impossible to get at the primary truth and primary knowledge, primary feeling and primary sensation in a different way. But everything points to the fact that majority of humanity has come to naught in their aspirations to be always and everywhere in the Divine manifestation of itself: the holistic man. I'm glad that along with indifferent people there are those who has an irresistible desire to gather in themselves EVERYTHING that EXISTS, the whole integrity and all multi-dimensional manifestations of themselves in all parallel worlds. It is a very joyful fact that determines and reveals the constant of compatible with My Rhythm and My aspirations. It means: it was not in vain that I, Zeranta, has written through Sergey in 13 books of the series "Rose of the World" the binding informational chronology of the expansion flight of multidimensional manifestations in a man and loss in people primary truth, primary source of the Sacred Bond. I also disclosed information of 4 floods that have occurred through the fault of humanity. I have written information about the cosmic home and conception of 2 branches of the human race, organized in Tibet and Altai, and provided information about the third branch of the generation which was not be able to survive on the territory of Donbass.

Two human race exist to this day, but from conception of 2 generations until now, there was a huge gap of information blocks that are

associated with key events that have created a massive restriction and shortening, that created time and rebuilt biological membrane beyond recognition. With the events that have reproduced the gap between 2 inseparable Spirits, with events that have driven all humanity to depravity and slavery. And just now I, Zeranta, wish to join all information blocks of the Single and ever expanding. I also would like to notify that for 300 million years and for the first time **I disclose and connect all the chronological key moments** in the ever-expanding life.

Arsten made a fatal mistake in his time at conception of generation in Tibet when he covered information about Atlantis up. It is for this reason, then there was a division among the people, which contributed mass limits to many lives. This hiding is reproduced the gap between chronological cells of information blocks. But, as you already understand, everything is always possible to correct. And I, Zeranta, always said and will say about the eternal easiness and about eternal Love. After all, only being in lightness, in Love, one can see the ever-expanding Light of Zeranta. Many people have been looking for centuries for primary truth, primary source, and chronology of structural construction of timeless intervals, but it was impossible to accept the truth in these matters without easiness. The impossibility of entering into a timeless constant was conditioned by unacceptance of multi-dimensionality and multi-peace, as well as by limiting itself through illusory limits. For this reason, many people who are looking for interfacing with all cells of chronological information blocks, came to a standstill, perceiving multidimensional information only in small pieces. And just now I, Zeranta, found a way out, or the entrance to the possibility of providing all humanity multidimensional bases of information chronological blocks. And now it remained only to unit, extend, and illuminate the chronology of all the moments in the history of the Earth and humanity, and I'll start with the cosmic home.

As you already know, cosmic home had to exist in orbit of the Earth during 80 years, but only for their reasons certain people started a riot on the ship and convinced many that if there is no time, so now it's time for all to go back on the Earth. I tried to bring the instigators to reason to wait for the right moment, which will reproduce its effects only by the designated date, but almost no one wanted to hear Me at that moment. I foresaw that going on the Earth, is unlikely to avoid death because the Earth was not yet prepared to the settlement, but with God's help 3 capsules successfully landed on the planet. People from the third capsule landed in the Donbass, could not survive, I have already talked about that. They had to dig tunnels in the ground, hoping to find the previous

civilization that existed at Atlantis. In contrast to Arsten and Palma, people from the 3rd capsule did not think to bring seedlings of many plant varieties, only supply of food and water. For this reason, they decided to create tunnels in the ground, hoping to find food, which, in their opinion, had to be remained from the lost civilization. They were partly able to provide the food, but if they could feel not only the interior of the Earth, but also the whole Earth and all Spaces, then I'm sure the third generation of people would be able to survive. And so they just dug and dug the ground in the hope of finding for themselves a little more food, in the end, they all have died of hunger. It is strange to Me as follows: in the cosmic home we constantly taught everybody to feel and to see God in himself in any situation, but I often get the impression that as soon as it comes to action, certain people completely forget their Divine essence. That's how people from the 3rd capsule acted, and this limited psychology passed to the 3rd generation, conceived in the Donbass. As a result, the third generation died of hunger when, I'm sure, the opportunity was even in such conditions not only to survive but also to expand themselves into all existing Spaces. However, what happened is what happened.

In contrast to the third generation, the 1st and the 2nd human generations have evolved, but people were cut off from information in Tibet because Arsten decided to hide information about Atlantis only for his reasons and start from scratch. And only subsequently he regretted his actions, when he began to perceive many limitations in people of his generation. He even tried to disclose information of Atlantis to his generation, but he did not have time. Seeing the massive limitations in people of his generation, Arsten has been leaving the settlement for many kilometres and spending his time in deep thoughts. I absolutely did not understand the fact that if he was able to see the shortening and many limitations in people of his generation, why did not he understand the origins of limitations in time? Of course, he comprehended and understood, but it was too late. Arsten could not harmonize his generation in time, and when he tried to provide hidden information, he was killed. On the way to the settlements he was killed by three people craving for power over all the settlements of the 2nd generation of people. Arsten left, failing to provide information which was hidden by him; and therefore, he did not have time to harmonize his generation.

My generation in Altai expanded and went into the multidimensionality of manifestation of EVERYTHING that EXISTS because people of My generation had all available information. But I understood at that moment: because of the shortened state of people of the

2nd generation, ignorant separation from the Divine essence is possible in the future, and then disharmony can absorb a large part of humanity.

And now I would like to focus your attention on key issues that have divided the whole humanity, made a time disbalance, and modified biological multidimensional structure beyond recognition.

Generally, there was neither time intervals, nor the definition of "time" as such in the manifestation of humanity up to certain key moments. I have earlier handed over Sergey information that during the life of 2 generations - Altai and Tibetan, certain people made a decision to pull energies of Ellonit (*it is a crystal structure of the Sacred Bond that is physically manifested on the planet Earth) and assign them only to their own beloved self. It was a moment in which many people have decided to organize their lives in such a way that, without doing something for their expansion and feeling, they could reassign the cosmic energies and use them to prolong their lives for ever and ever. According to them, a large accumulation of Ellonit on the hectares of lands was owned by them alone.

I will explain once again because it's important: The Sacred Bond came and comes up to Me - Zeranta, and each person was and is able to receive these energies. At that time, many people, living on the hectares of lands, have been reproducing the Sacred Bond, and could manifest It on their lands in the form of Ellonit's deposits. It was, as they say, "aerobatics" in feeling and sensing Me - Zeranta and God. And I was able to give to people who feel Me information by which it was possible to reproduce deposits of Ellonit on their own land. And people, on whose land was manifested Ellonit, could prolong their lives indefinitely.

Certain people because of their limitations at that moment, instead of expanding and rendering in themselves Sacred Bond coming from Me, decided to assign all Ellonit only to themselves. They saw that many people who lived on hectares of lands, had no age and did not have any restrictions on the extension of life on the Earth. They also saw Ellonit's deposits on the lands and decided to extend their life at the expense of someone else's energy.

People who have lost their Sacred Bond, invented artless scheme: they built triangular pyramids on all continents of the Earth, located on the top of each stolen Ellonit. Mounted on top of the pyramid Ellonit has been creating yellowish-bluish glow of Sacred Bond...

Before disclosing information on, I want to explain the relationship of a man and Ellonit.

Ellonit, located on hectares of lands, has also created a yellowish-bluish glow, but there was a very subtle point that I would like to disclose:

First, **expanding and feeling Me - Zeranta people were receiving coming top-down by the crystal lattice Sacred Bond;**

Second, feeling Me people could easily reproduce the movement and manifest the Sacred Bond on their land in the form of Ellonit;

Third, Ellonit filled the Space of **Cube** with its rays only on hectares of lands. More precisely, it marked Space of multi-spherical **Cube** off with its rays that helped the eternal expansion. It is very important to understand because limited people replaced multi-spherical **Cube** to pyramid, and thus subsequently reproduced time. Below I will explain in detail how it was.

In a time when limited people prompted themselves to Universal offense, I could not understand and accept their decisions and even more to allow withdraw Ellonit from hectares of lands of God-people. I tried to explain to people-egoists that their actions will lead to irreversible disharmony in Universal scales. But how could I explain to fools the importance of the multidimensional structure of multi-spherical **Cube**? Of course, they did not hear Me. So, as soon as they erected constructions in the form of pyramids on all continents, limited people located Ellonit on the top of each structure. Of course, Ellonit, as they expected, reproduced yellowish-bluish glow, but this glow has been crossing with all the pyramids and locking in a single chain. Limited people were sure that Sacred Bond will fill the whole Earth, and, as a consequence, will enter their bodies. Part of their expectations was met, but only a part...

I always explained and explain to all people, boys and girls, before you reproduce any process, please consult Me - Zeranta. Just so you will not get yourselves and all humanity involved in the long-suffering cycle. But no, you are selfish children who want to assign all moments you only to your own beloved self. But later, when the manifestation of life is limited for you, you begin to beg for yourselves even if small, but the space. I want to ask: why do you need limited space when God gives you a Mega-Space? How can you not understand such simple things? It is obvious that if you have chosen the way that does not coincide with the way of God, all possible living Spaces will closed for you. And then what? Unfortunately, practically nobody wants to think in this direction.

And now, see the consequences of pride and blatant interference in Spaces which are not deeply felt by you.

There are always numerous multi-dimensional manifestations in our Creative Space; they should always display the golden section. Also in our Creative Space there is always and everywhere a manifestation of 2 inseparable Spirits which exist both **Outside** and **In** - in manifested form,

for example, on the planet Earth. So, always and everywhere CREATOR thought over the following:

Sacred bond, in which multi-spherical expansion always occurs, have to enter constantly each person. And then each person, taking his "employment place", renders his Firm and expands his Sphere of his **Cube**. And so it should be... But irresponsible people-egotists rudely intervened in Source, and created something that as a result reproduced time. I'll explain it in more detail now.

Look, formed pyramids on the Earth in the plane look like a triangle, or the lower half of the hourglass.

But limited people did not realize that coming down **FROM** in **IN** has to enter and find multi-dimensional manifestation of humanity, expressed in multi-spherical ever-expanding **Cube**.

But as soon as artless network of pyramids started working, most people cast the feeling of ever-expanding **Cube** off and developed passion for living only at the expense of the energy of Ellonit sealed in a network of pyramids without reproducing something. Thus, they created in themselves and their bodies pyramidal closed chain, followed by the glow of Ellonit. To tell the truth, when I have seen this absurd idea, I suddenly realized to what lead reckless stupidity of many people. They do not understand: multidimensional and ever-expanding energies come down – **From** in **In**, but multidimensional energies should enter **multi-spherical, ever-expanding, multidimensional Cube**, which must be expressed in each person. And it always was so... however, as soon as pyramids, on which Ellonit was fixed, were manifested, many people have lost the sense of multi-dimensional, multi-spherical **Cube** and became addicted to the

use of other people's energies of Sacred Bond. Now let's look at the following picture.

Look, tips of pyramids which were standing on the Earth were sent into the sky.

Because Ellonit, fixed on the apex of each pyramid, was closed in the chain, the energy of Sacred Bond was partially closed to the point and did not have expanding effect of multi-spherical **Cube**. It means that people, who have lost a sense of **Cube**, one-dimensional appropriated someone else's Sacred Bond, which is narrowed to a point. Then multidimensional energies coming down **From** in **In**, (due to narrowing Sacred Bond to a point, because of pyramidal thinking of many people) entered manifestation in the form of an inverted pyramid. Two flows merged and reproduced hourglass.

And now, from this moment, I'm sure everyone can track and see that shorted bases of 2 pyramids, connected together, recreated hitherto unknown disharmonious manifestations in every person. But with such reckless actions limitations were appeared in every person, time was demonstrated, as well as biological tri-nuclear structure was modified, in other words, your bodies have changed the setting to the primary source, and as a result, lost eternity.

People shortened themselves instead of extending their lives, so they shortened their lives. The stupidity of many people led to the conception of

time intervals and time itself. Time did not exist up to this point, and people left the Earth on their own, without boundaries. You may ask:

- If time did not exist, could people have extended their lives infinitely and endlessly?

- Yes, it was so, but infinite and endless being on the Earth came to only those people who felt Me - Zeranta, and admitted into their bodies Sacred Bond, who felt multi-spherical **Cube**, who were led by God...

And people who did not want to be in this volume, had shortened their lives; if we convert to time understanding, their lives were 1,500 years before the manifestation of pyramids. However, when their stupidity was allowed to go on stealing and on the creation of a pyramidal chain, their lives reduced to 600 years. That's the abracadabra came out, and then sucked into its embrace billions of people.

Next, I'll describe in details and place all the moments of lost informational chronology up to our moment. Humanity does not understand how it is important to have **all** connecting links of information. What is the meaning of life, if you just see in front of you a short cycle of time interval, expressed in your daily life? This is the absurdity, so many people were wondering at the end of their worthless life, "What is the meaning of life and for what did I live?" But no one wanted to get the answer to this question, it was associated with shortening of the manifestation in Our Creative Space. And just now I, Zeranta, reveal all the information blocks in the history of the Earth and humanity, despite your unwillingness to know EVERYTHING.

After certain people have created disharmony in Universal scale; which is manifested by limited thinking in a form of closed chain of pyramids, there was a division in the people of God and the people of the devil. I'll explain why there was a division into good and evil, good or bad, in the people of God and the people of the devil.

Humanity could manifest God in himself, and be present in all Creative Space in moments of reproducing in themselves multi-spherical **Cube**. But as soon as limited people have created building of pyramids and closed chain - a prison for energies of Ellonit, changes took a place in many people in a blink. These changes have reconstructed the psychological drawing in people who choose to prolong their lives at the expense of someone else's energy. This drawing has modified thinking and set pyramids in a one-dimensional volume. Therefore, certain people began to get the source of multidimensional basis in inverse, limited form, as well as in a form of an hourglass. Let me remind you: the source of the Sacred Bond, coming from Me - Zeranta, should enter people who has

ever-expanding Sphere of multi-spherical **Cube**. The source of multidimensional information of 2 inseparable Spirits as also to be a part of eternally expanding Sphere of multi-spherical **Cube**. However, because multi-spherical **Cube** was lost and changed to the pyramid; multidimensional basis of Sacred Bond, multidimensional basis of 2 inseparable Spirits now came in the form of an inverted pyramid to people who desired to prolong their lives at the expense of someone else's energy. People who have pyramidal psychology of closed chain of stolen Ellonit, took inverted, distorted information in the form of an inverted pyramid. Of course, uncontrolled phase of events have started in lives of people. Of course, people started to look for God at themselves and their bodies. Of course, the separation into good and evil, into Devil and God was manifested along with a shortened thinking and rejection of three-dimensional, Multidimensional information of Sacred Bond, information of 2 inseparable Spirits.

But not all people have taken pyramidal psychology, so secondary division took place; it was expressed by the boundaries of settlements of people who reproduce their life on hectares of lands, feel Me – Zeranta, and accept Sacred Bond expanding Sphere of their **Cube**. Due to the mismatch of feelings and sensations, entrance for limited people to hectares of settlements of God-people was strictly forbidden. For this reason, limited in the feelings and sensations people languished on the mainland, which now calls Africa. On the remaining part of the land God-people reproduced their lives; God-people, who have not divided into nations, in which there was no separating composite, and who felt and loved Me - Zeranta. I hoped that limited people will realise their stupidity and join Us with a certain moment. But the following is happened.

The hunt for Ellonit began on the mainland called Africa, in other words, limited people began to perceive that their lives have shorted considerably. Moreover, many diseases from which people died instantly have appeared. Not long thinking, a small group of people decided to re-close chain of Ellonit...

Before continuing, I want to explain the following: as soon as limited people have reproduced the division and fragmentation of Sacred Bond, We, who reproduce Sacred Bond, made a decision not to admit people who roughly dragged themselves in darkness of disharmony in our settlements organized on hectares of lands. Therefore, limited people, one and all, gathered on the continent called Africa. But the network of pyramids, which they reproduced on all continents, has remained. We did not destroy their invention, we wanted them to clean all the garbage and

return the stolen Ellonit. Our expectations were not fulfilled... People from Africa did not only get under way in the direction of awareness, they, contrary to Our expectations, began with small groups to pull over closed chain of the pyramids. They thought: if they pull the light of Ellonit only on them own beloved self, all disease will leave them, and life will be prolonged. At that moment I, Zeranta, realized that people of Africa can not escape death, and the best thing that could happen to them, it is - only death. God and I developed a joint project, which had to reproduce the flood at a certain moment. But I did not want to do some work, which become inevitable after all population of Africa will die. First, I understand that after the water will rise and cover the mainland, everything will perish. Second, it means that I, Zeranta, will have to restore the soil, vegetation, animals, birds and insects, in other words, lead the continent in the living state. But let Me why I, not you?

I had decided to find someone who would be able to hear Me, accept, believe and do some work, which subsequently facilitate his efforts to restore the mainland. And this person is found, you know him under the name of Noah. I'm sure that many of you know this part of information about Noah's Ark, so I do not see the need to explain and show you it in detail. I can only say that later Noah became obsessed with the man, and it has again created troubles for Me. But more soon after. And now I will show you how a small group of people tried to send a closed network of pyramids in the center of the continent of Africa. As I have said, a certain group of people decided to re-close circuit of pyramids and direct the light of Ellonit in the center of the continent. They thought that it will restart the program, which will stop the illness and death. They also foolishly decided to concentrate the light of Ellonit only in necessary for them place. They began to dig a lot of tunnels in the ground and place their homes near to do this. According to them, the light of Ellonit had to be concentrated in the tunnels, then intensify and come to grass.

I'm always startle at the human's lack of foresight and lack of understanding of overall processes. People come up with something that, in their opinion, will bring into their lives forever being instead of finding the lost Bond and take their "employment place". But let Me, you bring in Our Spaces with your limitation only mud. Is there really no light in you, which should illuminate the direction towards Sources in each of you? Is there really nothing Sacred in you? Or is the light still left in you? But then explain to Me why are you, each of you, marking time hoping to find God? You've heard about Shambhala and that only secret teachers and adepts had access to that Space. But nobody was able to understand Shambhala,

for the reason that psychology of 2 pyramids is still remained in each of you. Many people even tried to find Shambhala, organized expeditions, months and even years wandering in search and found only the explanation that the entrance to Shambhala is open only to chosen people. Is it up to what had you to live to seek only material gate to Shambhala? Adolf Hitler in his time was also looking for the gates to Shambhala, but he realized that these gates have spiritual component. Thus, he sought no physical entrance to Shambhala, but information about multi-spherical **Cube**. And if he did not lose Love, We could have in that moment illuminated multi-spherical **Cube** for all people of the Earth. Only now I, Zeranta, can provide all humanity the entrance to Shambhala. Only now it is possible for every person to find his entry in his Shambhala. And this action is not difficult, as many thought, you just need to accept in yourselves multi-spherical **Cube**, and erase in yourselves information about 2 inverted pyramids. H.P. Blavatsky in her time came to the Privy Council of Mahatmas - the highest teachers who lived in Tibet. Mahatmas admitted her to their temple, where she lived for seven years studying the highest manifestation of the cosmic energies. Great teachers held multi-spherical **Cube** in themselves, and each of them was in his Shambhala. H.P. Blavatsky once spoke in one of the books: "It is strange to understand human mutilation because almost everyone mutilated himself on their own, and now scolds all around hoping to attract attention to himself." She meant that everyone took on himself 2 inverted pyramids. She also said often: "The way to God is open to every person, but this way you need to earn your gut." In other words, to open in yourselves multi-spherical **Cube**. "And as soon as people gather in themselves the wisdom which does not have neither the time nor age - instantly find the entrance to Shambhala." This means that as soon as a man recover lost Sacred Bond, instantly restore in himself sense of multi-spherical **Cube**.

I'm sure it is not difficult to perceive this information now, I was also sure that it was not difficult to perceive it at key moments of limitation of the psychology of 2 pyramids in itself. But at that moment limited people decided to excel in their whims, in there selfishness, in their debauchery and unwillingness to reproduce their lives at the expense of their Sacred Bond, their Planet, their Avatar, their Sphere of multi-spherical **Cube**. As much as I would want in that time the returning of the lost people in Single Rhythm, as much as I would help them to recover lost cells of Single information, unfortunately, limited people one-dimensional moved to their death. As you know, information about Noah's Ark and the flooding of the Earth is registered in the Bible. But I would like to clarify some points for

you and add reality of the events that took the lives of millions of people and events that have reproduced after...

And I'll start with the fact that the flood described in the Bible took lives of a part of people, to be exact: people who live limitedly on the continent of Africa, and occupied by area, only 1/3 of the land. The rest of the land has remained untouched by the water element. But before the flood has begun, the light of Ellonit has reproduced violent explosion, which was concentrated on the mainland, separating the mainland from the main part of the land and caused a strong wave that engulfed Africa. Noah and his family survived in the ark, as well as many animals, birds and insects with them. Noah was sure that the flood engulfed the whole Earth, so he fought for his life, but subsequently his struggle was aimed at the death.

You can ask Me:

- What was on the rest of the land?

- People who felt Me – Zeranta, who held in themselves multi-spherical **Cube** have reproduced their lives on the rest of the land.

We lived in a multi-dimensional, living life on hectares of lands, and our life had no limitations. People could leave life when they wanted, and they went to their Planets. Love was living in all of Us; it covered every corner of the planet called Earth. It covered you - limited people. It was waiting for you in Single Creative Space. And it is waiting for you now. But now you, like small children, are mocked with hopes to get for yourselves just a moment benefit. You are mocked with hopes to forecast your future, and doing nothing, vegetating on the Earth. Your life does not make any sense because God is not reproduced by you. You distanced yourself from universal Spaces and are mocked with tomorrow's day, are living not Here and Now, but at some point in the future. The future that you do not feel at all; therefore, it means that you have no future. Also, you have no past. You can say that this having no future and no past, is the feeling inherent in higher teachers, so you're on the right track. But I will say that Mahatmas are the highest teachers who have never lost multi-spherical **Cube** in themselves and in their lives. Therefore, all the energy for all the existence of the Earth and humanity was in expanded form in them, which means that only in this coverage, you can live Here and Now, reproducing presence. Mahatmas admitted H.P. Blavatsky to their temple, and the reason was that they could see in her first-born woman who was created by CREATOR, they were able to remember Me - Zeranta, and they were able to feel Me, and take their place in the crystal lattice, take their "employment place " and find their Firm. They kept feelings-knowledge,

which were illuminated by Me at the birth of generation in Altai, and gladly handed them to Me. I stayed with them 7 years in their monastery, spending every moment in the work, and when I filled in all information cells, I returned to the people of the Earth. But you really were not ready to accept Me - Zeranta. Therefore, Hitler came to the Earth, it is I who asked him to come to the Earth, it is I, Zeranta, who prepared the ground for him, and it is I, Zeranta, who helped him and provided an enhanced perception. But you could not accept even him, and eventually began to curse him. But ask yourself honestly: for what were you ready at that moment, and for what are you ready at this moment? I'll answer for you: only just a moment indulging your whims. I do not approve of the decision of Adolf to manifest military action, I also do not approve of his desire to destroy the Jewish nation, I also do not approve of his composure in the war. But ask yourself, honestly, if not so, then how to bring you in a sense, to bring into a living life, to bring to the feeling of multi-spherical **Cube**? I always consider the events not in direct single-line, but in three-dimensional multi-dimensionality. But you, like small children, cursed Adolf. But you can not imagine life for yourselves without his energy... Do you think that it is not so? Then tell Me, why do you always remember Adolf Hitler almost in every life-giving, life-historical moment? After all, how many years have passed since he left, but you are not able to forget him, and it is directly related to his energy, from which you can not refuse. But as it turns out, you can curse him mindlessly. Try to understand that if you curse the person to whom you are stuck, do not you curse yourself?

People will describe topic Adolf many more until they get to the truth. And the truth is this: only one person can not be guilty of what is happened at that moment on the planet Earth... And as long as you do not understand this fact, you will walk in a circle, beat about the bush, and when you realize, you will free yourself to living life... And it's the truth ... And now we move on.

As you know, Noah and his family have found the land – it is Mount Ararat, his Ark ran aground in this place, and a week later he and his family, as well as all living creatures were able to get to land. Water dropped for the week, and expanses where he continued the race, to be exact the generation of people in Africa, have opened before him. God and I have decided that people who died on the continent of Africa, had to appear in the generation of Noah to pass the school of education that would bring limited people of Africa to multidimensionality of BEING. But subsequent extant history did not meet Our expectations, and We now have that, what mankind has decided, to be exact - our reality. You can

find detailed information of the time of Noah in the work of Mikhail Naimy called "The Book of Mirdad". His work puts and coordinates all informational chronological cells of Noah's generation, which are extant.

In conclusion, I would like to summarize and explain to you some points. I, Zeranta, has written informational chronology in the entire history of the Earth and all humanity through Sergey in the series of books "The Rose of the World". And now everyone will be able to restore and coordinate all lost informational cells. Up to this point I, Zeranta, could not provide people chronology, and the reason for that is your indifference. If Sergei did not want now to restore a lost in himself, I would not be able to reveal to you the multidimensionality and Source of Sacred Bond, as well as the chronological Source.

While the generation of Noah was growing, people who felt Me – Zeranta, reproduced their lives on the hectares of lands. No matter how I tried to join people of Noah's generation to the SINGLE, no matter how I tried to give them the information of extension, much to My regret, people of Noah's generation did not want to move with Me in the same Rhythm. And then Noah thought about himself as "chosen" person and closed with his sons in the ark, keeping questionable knowledge. He met his death there, and his generation propagated and multiplied, carrying only the pieces of SINGLE, and it was only a matter of time before they fill up the whole Earth. For a long time, people living on hectares of lands, could keep their lands untouched from people who torn to pieces all alive. And only with a certain moment (I have previously described through Sergey, when people were given an illusory hectare in the space of the city) the integrity of the energy of hectares, the integrity of a SINGLE Rhythm have faltered. But I - Zeranta and My circle of people have held a SINGLE Rhythm and subsequently appeared free State KraySta. But then you know (I have previously described) what is happened. I will say that the settlements of hectares have been existed almost to the present day. Last hectare was abandoned only 250 years ago by people who feel Me. They were killed by limited people, desired what belongs to others.

Next, I would like to disclose information about generation of Hyperboreans. In fact, many scriptures exaggerated reality of this race of people, giving them the significance and mystery in the origin. And only now I will be able to illuminate the reality of information about the Hyperboreans. Sergey, fulfilling his mission on the Earth, fell asleep at some point. The generation of people from his planet Velinokgrozdya decided to help him. They went to awake Sergey, and after fulfilling their mission they had to come back to their planet Velinokgrozdya. But that's

only that people from the planet Velinokgrozdya forgot to consult Me - Zeranta. If they had asked Me, I would not have given My blessing to such an action in any case, but contrary to My opinion, they went to the Earth in a spaceship. Their height was much higher than the height of people of the Earth, so they had to hide in the bowels of the Earth, creating later the whole cities. I am outraged by their actions to the extreme. I want to ask these people: who gave you the right to rudely invade Our Spaces? They created a lot of problems for Me by their actions because they formed a generation of people living in the bowels of the Earth. They recreated the energy that has spread to the whole humanity. This energy in its core carried the movement into the depths of the Earth. And thus, they turned thoughts of humanity in the bowels of the Earth even more. Therefore, people who were selected on a mission to save Sergey, fell asleep, and have themselves become in need of salvation. Along with this, they could go to their Planet, partly because their spaceship rooted in the ground and deepened its roots, tripped over a stone ground, and partly because they burdened themselves with a promise to fulfill their mission. And now, they vegetate incarnating on the planet Earth and completely forgot why they came during ions of non-existent time. And now their location determined in Turkey. It is they who now come up with another ark, which effectively can survive for 80 years without a port call. They're waiting for the next flood, so they do not go far away from their ark. And it is their underground cities which were flooded by water at some point. That's the information Here and Now which takes place for perception...

And in conclusion, I would like to please people. I, Zeranta, asked Mahatmas - secret teachers to appear in their avatars to the Earth to transmit all humanity lost knowledge. And they agreed, so they already are on the Earth. This training can take place both in dreams and reality. And you do not need to go at the other end of the world in search of Mahatmas because they are next to each of you. It will be enough and 3 days for training for some people, months - for some, and years - for some. But one way or another, each person recorded in the book of life, will fill his gaps and feel multidimensional basis, built in multi-spherical **Cube**. And this is very good news...

I also very happy when people are getting on to the fact that if their lives will be filled with multidimensional sense of BEING, they will never die. What is the meaning of your existence if the limitation of 2 inverted pyramids manifests in you only massive mass limits? All that you can do

in this manifestation is only tear small pieces of the Divine essence, tear small of SINGLE and ETERNAL, JOYFUL, and HAPPY, LOVED and SECRET... But torn pieces of SINGLE will not recreate in you that, what is lost and secret that expanded and filled entering into life eternal existence. And now you will not be able to tear and tear out for yourselves pieces of God, and the reason is very obvious. Now I, Zeranta, dissolve 2 inverted pyramids forever, and inverted psychology will be dissolved in you with it. And after the release of this book, multi-spherical **Cube** will be manifested for all eternity, and if you will not be able to accept energies of multidimensional, multi-spherical **Cube** in yourself and your bodies, then your bodies will not be able to manifest lives on the planet Earth. Therefore, people who want to take the forgotten and true, want to feel and sense Me – Zeranta in entire multidimensionality will continue their lives because only I feel everything, sense everything, know everything. And no one else on the planet Earth and far beyond feels the volume of **Cube** the way I feel it.

And know, I Love you all very much, and that makes Me want to return every person in the manifestation of multi-spherical **Cube** to the end of time...

To be continued...
